1. **HEADINGS:** Paragraph headings are only for ready reference to the terms of this lease.
2. **CONDITION "AS IS":** Renter acknowledges inspecting the apartment prior to signing this lease and accepts the apartment in the condition it is in as of such inspection. Renter acknowledges that the apartment is free of defects. Owner warrants that the apartment and building are fit for habitation and there are no conditions dangerous to health, life or safety.
3. **USE AND OCCUPANCY OF APARTMENT:** The apartment is to be used and occupied for private residential purposes only, as the primary residence of Renter. The apartment may be occupied only by Renter named in this lease, Renter's immediate family, or other occupants in accordance with the applicable provisions of law. Renter agrees that the apartment will be occupied only by the following individuals, in addition to Renter:

NAME	DATE OF BIRTH	RELATIONSHIP TO RENTER

Renter is obligated to advise Owner, in writing, if any additional occupant moves into the apartment. Such notice must be furnished by Renter to Owner within 10 days of the date such additional occupant moves into the apartment. The apartment may not be occupied by more than the number of occupants permitted by §272075 of the Housing Maintenance Code. The apartment may be occupied by one roommate.

4. **RENTER'S POSSESSION OF APARTMENT:** Owner shall not be liable for failure to give Renter possession of the apartment on the beginning day of the lease term. Rent shall be payable as of the beginning of the term unless Owner is unable to give possession, in which case rent shall be payable as of the date possession is available. Owner must give possession within 30 days of the beginning day of the lease term. If not, Renter may cancel this lease and obtain a refund of money deposited. Owner will notify Renter as of the date possession is available. The ending date of the lease term will not change in the event Owner is unable to give possession as of the beginning of the lease term.
5. **RENT, ADDED RENT, RENT ADJUSTMENTS:**

a. Rent payments for each month are due on or before the first day of each month at the address above or at a location designated by Owner in writing. Notice from Owner to Renter that rent is due is not required. The rent must be paid in full without deductions. The first month's rent and added rent must be paid when Renter signs this lease.

b. Renter may be required to pay other charges and fees to Owner under the terms of this lease. They are called "added rent." This added rent will be payable as rent, together with the next monthly rent due. If Renter fails to pay the added rent on time, Owner shall have the same rights against Renter as if Renter failed to pay rent.

c. If this apartment is subject to the rent stabilization laws, the rent and any surcharges to be paid during the term of this lease may be adjusted, prospectively or retroactively, pursuant to an order or directive of the New York State Division of Housing and Community Renewal (DHCR). Renter agrees to be bound by such determination, and to pay any increase in rent in the manner specified by the agency. In the event the applicable rent guideline has not been fixed by the Rent Guidelines Board (RGB) by the date the lease is executed, the rent provided for in this lease may be increased or decreased retroactively to the commencement date of the lease consistent with orders issued by the RGB. Added rent as defined herein shall include, but is not limited to:

Renter agrees to pay the following surcharges pursuant to §2522.9 and §2522.10 of the Rent Stabilization Code:

Air Conditioner:	\$0.00	Dishwasher:	\$0.00
Washer:	\$0.00	Dryer:	\$0.00

6. **FAILURE TO PAY RENT ON DUE DATE:** Rent is due by the first day of each month. Payment after the 10th day of each month shall be considered a "late payment." Renter expressly agrees and understands that three (3) or more late

payments in any twelve month period shall be deemed to be a failure to comply with a substantial obligation of this lease and be grounds for the termination of this lease and eviction of Renter by Owner.

- 7. FEE FOR LATE PAYMENT:** Due to administrative inconvenience and costs incurred due to late payment of rent, Renter agrees to pay the sum of **\$50.00** per month in any month in which the rent is tendered after the late payment date, as added rent. Although Owner is charging a late charge, Owner may commence any action or proceeding with regard to Renter's failure to pay timely rent. This paragraph is not a waiver of Owner's right to collect or demand rent.
- 8. DISHONORED CHECK FEE:** If Renter pays rent by check and such check is dishonored for any reason by the bank on which the check is drawn, Renter will be responsible to pay Owner a dishonored check fee of **\$50.00** in addition to the fee for late payment. This fee is added rent.
- 9. SECURITY:** Renter has given a security deposit to Owner at the time of Renter's signing of this lease in the sum of **\$4,000.00** which is equal to **1 Month's Rent**. If required by law, the account will bear interest at the banking institution's prevailing rate. If Renter carries out all of Renter's obligations under the terms of this lease, an annual payment of accrued interest will be made by the banking institution to the Renter, less 1% interest of the security on deposit, to be tendered by the banking institution to Owner. Owner may use or apply all or any part of the deposit as may be required to pay for damage to the apartment during the term of this lease. If Renter carries out all of Renter's obligations under this lease, and if the apartment is returned to Owner at the expiration of the lease term in the same condition as when rented by Renter, ordinary wear and tear excepted, Renter's security deposit will be returned in full to Renter, with accrued interest thereon, within **30 days** of Renter vacating. If this lease is renewed, and the amount of security deposit Owner is permitted to retain is increased above the amount deposited upon the commencement of this lease term, then Renter shall, upon such lease renewal, pay to the order of Owner such additional sum. If Owner sells or leases the building, Owner may remit the security deposit, as provided by law, to Renter or to the new Owner or lessee, at Owner's election. If Owner remits the security deposit to the new Owner or lessee, Renter agrees to seek the return of the security deposit from the new Owner or lessee, and releases Owner from any claim to the security deposit. Renter shall not use the security on deposit to pay the last month's rent of the lease term. Owner may use security deposit in full or in part if necessary to pay for unpaid rent, damage or loss due to rerenting over the course of this lease.
- 10. SUBLETTING/ASSIGNMENT:** Renter shall not assign the apartment in whole or in part. Renter shall not sublet the apartment in whole or in part without the written consent of Owner, nor permit anyone not specifically indicated in this lease to occupy the apartment subject to the provisions of the Rent Stabilization Law and Real Property Law §235f and §226b. A sublet without consent, or any assignment shall constitute a default of this lease.
- 11. SERVICES:** Owner will provide services which are required by law. The following services and utilities are the responsibility of Renter unless otherwise indicated below:
- | | | | |
|--------------|-----------------------------|--------------|-----------------------------|
| Electricity: | _____ | Cable TV: | _____ |
| Gas: | <u>Paid by Owner</u> | Hot Water: | <u>Paid by Owner</u> |
| Telephone: | _____ | Cooking Gas: | <u>Paid by Owner</u> |
| Heat: | <u>Paid by Owner</u> | Other: | _____ |
- 12. OWNER'S INABILITY TO PROVIDE SERVICE:** If Owner is unable to provide certain services as a result of circumstances which are not the fault of Owner, Renter's obligations under this lease, including the obligation to pay rent without abatement, shall remain in effect.
- 13. REPAIRS:** Renter is responsible for the proper maintenance of the apartment. Renter must, at its sole cost and expense, repair or replace anything in the apartment requiring repair replacement as a result of Renter's actions or neglect. If Renter fails to effectuate such repair or replacement Owner may do so at the Renter's expense. The cost of such repair or replacement shall be added rent. Renter will reimburse Owner all costs incurred by Owner to remedy damages to the apartment or the building caused by Renter, members of Renter's family, Renter's guests or Renter's household staff. Such sums shall be added rent.
- 14. ACCESS:** Owner shall be permitted to enter the apartment at all reasonable hours for the purposes of making repairs, showing the apartment to prospective renters, mortgagees, or buyers, making improvements to the building at Owner's sole discretion and for the inspection of the apartment. In the event of an emergency which affects the safety of the renters in the building or which may cause damage to the building, Owner may enter the premises without prior notice to Renter. Failure to provide access is a substantial violation of this lease.
- 15. LIABILITY OF RENTER:** Renter shall pay all sums incurred by Owner, in the event Owner is held liable for damages resulting from any act by Renter. Landlord recommends that tenant secure insurance to protect himself and his property.
- 16. FIRE AND CASUALTY DAMAGE:** Renter is required to advise Owner immediately in the event of fire or other casualty which renders the apartment partially or wholly unfit for occupancy. Owner shall repair the premises as soon as possible subject to any delays due to adjustment of insurance claims or any cause not under Owner's control. If part of the premises a usable, Renter must pay rent for the usable part. If the premises are damaged where Owner feels that the apartment is beyond repair, the term of this lease shall end and Renter must vacate the apartment. If the fire or casualty was caused by Renter's actions the costs of the repairs shall be repaid to Owner by Renter as added rent.
- 17. DEFAULT:** 1) You default under the Lease if You act in any of the following ways: a) You fail to carry out any agreement or provision of this Lease b) You or another occupant of the Apartment behaves in an objectionable manner; c) You do not take possession or move into the Apartment 15 days after the beginning of this Lease; d) You and other legal occupants of the Apartment move out permanently before this Lease ends; If You do default in any one of these ways, other than a default in the agreement to pay rent, Owner may serve You with a written notice to stop or correct the specified default within 10 days. You must then either stop or correct the default within 10 days, or, if You need more than 10 days, You must begin to correct the default within 10 days and continue to do all that is necessary to correct the default as soon as possible. 2) If You do not stop or begin to correct a default within 10 days, Owner may give You a second written notice that this Lease will end seven days after the date of the second written notice is sent to You. At the end of the 7 day period, this Lease will end. You then must move out of the Apartment. Even though this Lease ends, You will remain liable to Owner for unpaid rent up to the end of this Lease, the value of your occupancy, if any, after the Lease ends, and damages caused to Owner after that time as stated in Article 17. 3) If You do not pay your rent when this Lease requires after a personal demand for rent has been made, or within three days after a statutory written demand for rent has been made, or if the Lease ends, Owner may do the following: a) enter the apartment and retake possession of it if You have moved out; or b) go to court and ask that You and all other occupants in the Apartment be compelled to move out. Once this Lease has been ended, whether because of default or otherwise, You give up any right You might otherwise

have to reinstate or renew the Lease.

18. EARLY TERMINATION OF LEASE: If this lease is canceled as set forth in paragraph "17," Renter must pay "use and occupancy" (in an amount equivalent to monthly rent) until Renter vacates the apartment. If Renter vacates the apartment prior to the expiration of the lease term, Renter shall be liable for "use and occupancy" until the expiration of the lease term or until such time as the apartment is rerented, whichever is sooner. After Renter vacates, Owner may rerent the apartment for the remainder of the lease term, or for a period shorter than or greater than the term of this lease at a monthly rental which may be more or less than the monthly rental specified on page one of this lease. If the apartment is rerented for less than the monthly rental specified above, Renter shall be liable for the difference between Renter's monthly rent and the new rental amount, until such time as the balance of the term of this lease expires. In addition, Renter shall be liable for all expenses incurred in connection with the rerented of the apartment, including but not limited to broker's fees, advertising costs and cleaning expenses.

19. LEGAL FEES (Owner's Option):

☐ In the event either Owner or Renter incurs legal fees and/or court costs in the enforcement of any of Owner's or Renter's rights under this lease or pursuant to law, neither party shall be entitled to the repayment of such legal fees and/or court costs.

If the above box is not checked, Renter shall be liable to Owner in the event Owner incurs legal fees in the enforcement of any of Owner's rights under this lease or pursuant to law. Renter shall be liable to Owner for such legal fees and/or court costs as added rent.

20. NO JURY TRIAL: In any legal proceeding arising under the terms of this lease, whether instituted by Owner or Renter, the parties agree to give up the right to a trial by a jury. **The right to a trial by jury is an important right of Renter, and Renter is agreeing not to demand a trial by jury.** The foregoing is not intended to prohibit a demand for a trial by jury in actions for personal injury or damage to property.

21. NO COUNTERCLAIMS: In any action by Owner seeking recovery of the apartment, Renter shall not make a counterclaim against Owner relating to any matter other than a claim that Owner has not properly maintained the condition of the building or apartment. Renter shall be required to bring an independent action on any other counterclaim.

22. REENTRY: If Renter is dispossessed by legal action Owner may enter the apartment without being liable for reentry, and may rerent the apartment. Renter will be liable to Owner for any and all expenses related to the entering, repairing, redecorating and rerenting. Renter waives the right to reenter the apartment after a final order or judgment in any action is signed or after Renter is removed from the leased apartment.

23. ABANDONMENT: The removal of all or a substantial part of Renter's furniture from the apartment or any other indications that the apartment has been vacated shall be deemed an abandonment by Renter and Owner may then reenter and take possession of the apartment, repair and redecorate it for the purpose of rerenting, whether or not Renter has surrendered the keys. Such taking by Owner shall not be deemed to relieve Renter from liability to pay the rent. Renter releases Owner from any and all claims for damages by reason of such reentry.

24. WINDOW CLEANING: Renter shall not allow any windows to be cleaned from the outside unless such service is provided by Owner.

25. COMMON AREAS: Renter shall not place baby carriages, bicycles or any other property in or on fire escapes, sidewalks, entrances, driveways, elevators, stairways, halls or any other public areas. Public access ways shall be used only for entering and leaving the apartment and the building. Only those elevators and passageways designated by Owner can be used for deliveries.

a.) Residents duties: Resident agrees, at his sole cost and expense, to comply with all present and future laws, orders and regulations of all state, federal municipal and local governments, departments, commissions and boards regarding the collections sorting, separation and recycling of waste products, garbage, refuse and trash. Resident shall sort and separate such items into categories as provided by law, and in accordance with the rules and regulations adopted by Owner for the sorting and separating of such designated recycling material.

b.) Owners rights if resident fails to comply: Owner reserves the right, where permitted by law, to refuse to collect or accept from Resident any waste products, garbage, refuse or trash which is not separated and sorted as required by law, and to require Resident to arrange for such collection, at Resident's sole cost and expense, using contractor satisfactory to Owner.

c.) Fines and penalties, indemnification of Owner: Resident shall pay all costs, expenses, fines, penalties or damages imposed on Owner or Resident by reason of Residents' failure to comply with Paragraphs a and c above, and shall indemnify, defend, and hold Owner harmless from and against any actions, claims, and suits arising from such noncompliance, using counsel reasonably satisfactory to owner, if Owner so elects. Residents' noncompliance with Paragraphs a, b or c shall constitute a violation of a substantial obligation of the tenancy and Owners' rules and regulations. Resident shall be liable to owner for any costs or expenses, including attorneys' fees, of any actions or proceeding by Owner against Resident, based upon Residents' breach of Paragraphs a, b or c.

27. KEYS: Renter must provide a key to any and all locks to Renter's apartment to Owner, and Owner must pay to Renter the reasonable cost of the keys. Renter shall not install a doublekeyed cylinder in any lock to Renter's apartment.

28. NO PETS: Renter acknowledges that he shall not have any dog, cat or other animal on the premises unless permitted in writing by Owner. In no event shall any dog, cat or other animal be permitted in any elevator or in any public portion of the building unless carried or on a leash. Failure to comply with this provision shall be grounds for termination of the tenancy and lease.

29. SMOKE ALARMS AND CARBON MONOXIDE DETECTORS: Renter acknowledges that the apartment being rented has smoke alarm(s) and carbon monoxide detector(s) in proper working order.

30. WINDOW GUARDS: Renter hereby agrees to notify Owner if any child who is ten years of age or under occupies this apartment so that Owner may install window guards in each window of the apartment in accordance with law, which shall be at tenant's expense. Renter shall not install any gate or guard on any window without written permission of the Owner or remove any window guard installed by Owner. Renter shall be liable to Owner for any violations issued to Owner as a result of Renter's failure to permit Owner to install window guards.

31. PEELING PAINT: Renter hereby agrees to notify Owner of any paint within the apartment that is peeling, cracking,

flaking, blistering or loose in any manner so that Owner may repair such conditions.

- 32. END OF TERM MOVING OUT:** At the end of this lease term, Renter shall leave the apartment clean and in good order, reasonable wear and tear excepted. Renter shall remove all of Renter's personal possessions from the apartment after Renter has vacated. Renter shall not install a waterbed, washing machine, dryer, dishwasher, air conditioner, refrigerator, sink, kitchen cabinets, stove, other mechanical equipment or an external antenna in an apartment without the written consent of Owner. If Renter is permitted and does install a window air conditioner, Owner is entitled to receive a rent increase in accordance with law. The rent increase is payable to Owner as added rent beginning on the first day of the month following installation.
- 36. DEPOSIT OF RENT:** If Owner commences legal proceedings against Renter, Renter may be required to deposit rent into court. Failure to deposit such rent may result in the entry of a final judgment against Renter.
- 37. TERRACES AND BALCONIES:** The apartment may have a terrace or balcony. The terms of this lease apply to the terrace or balcony as if the terrace or balcony are part of the apartment. Owner may make special rules for the terrace and balcony. Owner will notify Renter of such rules. Renter must keep the terrace or balcony in good repair and clean and free from snow, ice, leaves and garbage. No cooking is allowed on the terrace or balcony. Renter may not keep plants or install a fence or any addition on the terrace or balcony. If Renter does so, Owner has the right to remove and store them at Renter's expense. Renter shall not make or permit any disturbing noises in the apartment or building or permit anything to be done that will interfere with the rights, comfort or convenience of other renters. Renter shall not play a musical instrument or operate or allow to be operated audio or video equipment so as to disturb or annoy any other occupant of the building.
- 41. NO PROJECTIONS:** Renter may not install or cause to be installed anything on the roof or outside wall of the building or any balcony, terrace, or window.
- 42. MOVING:** Renter can use the elevator or service elevator, if any, to move furniture and possessions only on designated days and at designated hours. Owner shall not be liable for any costs, expenses or damages incurred by Renter in moving because of delays caused by unavailability of the elevator. Renter shall be liable for any damage caused to the building or the apartment during such move.
- 43. WAIVER OF FOREIGN SOVEREIGN AND DIPLOMATIC IMMUNITY:** Renter represents that he is not subject to foreign sovereign or diplomatic immunity. Renter expressly waives the doctrine of foreign sovereign immunity and diplomatic immunity and consents to the jurisdiction of the Housing Court and all other courts. Renter expressly represents that in the event a judgment is obtained against him, Owner may enforce the judgment against any property or assets of Renter, wherever they are located.
- 44. MILITARY STATUS:** Renter represents that he is not in the United States military, and is not dependent upon a member of the United States military. Renter must notify Owner within ten days of enlistment in the military.
- 45. PARTIES BOUND:** This lease agreement is binding on Owner and Renter, and on all those who claim a right, or have a right, to succeed to the legal interest of Owner and Renter.
- 46. FORMS:** Renter agrees to complete any and all forms that may be requested by Owner from time to time.
- 47. SUBORDINATION:** The rights of Renter, including all rights granted under the terms of this lease are, and shall be, subject to and subordinate to the terms of any mortgage on the building or the land under the building which now exists, or which may hereafter exist. The foregoing shall include but not be limited to any modification, consolidation or extension agreement of any existing mortgage on the land or building.
- 48. SINGULAR/PLURAL and JOINT/SEVERAL:** The use of the singular shall be deemed to include the plural, and vice

versa, whenever the context so requires. If more than one entity is renting the apartment, their obligations shall be joint and several.

- 49. CONDEMNATION/EMINENT DOMAIN:** If the building, or any part of the building, is taken or condemned by a public authority or government agency, this lease will end on the date of such taking. In such event, Renter will have no claim for damages against Owner based upon such taking, and Renter will be required to surrender the apartment to Owner upon 30 days written notice from Owner to Renter of such government taking.
- 50. CONSTRUCTION/CONVENIENCE:** Neighboring buildings may be the subject of construction, renovation or demolition. Owner will not be liable to Renter, nor shall Renter seek to hold Owner liable for interference with views, light, air flow, or ventilation, the covenant of quiet enjoyment, or breach of the warranty of habitability whether such interference is temporary or permanent, if such interference results from activities conducted on adjoining Owners'properties.
- 51. NO WAIVER:** The failure of Owner to insist at any time upon strict performance of any clause in this lease shall not be construed as a waiver of Owner's rights. No waiver by Owner of any provision of this lease can be made unless made in writing by Owner. Acceptance of rent by Owner with knowledge of the breach of any condition or term of this lease is not a waiver of the breach.
- 52. CREDIT REPORTS:** Renter authorizes Owner to use the Social Security number of Renter to obtain any and all credit reports for the purpose of the initial lease or any renewal thereof now and no more than five years after the expiration of this lease or any renewal thereof, and fully understands that these reports will be used by owner in connection with Renter's occupancy of the apartment.
- 53. GUARANTOR:** If Renter has a Guarantor sign the initial lease, Renter agrees to have a Guarantor sign all renewal leases. The guarantee is a material term and condition of the lease. The failure to continue the guarantee negates Owner's obligation to enter into a renewal lease.
- 54. ENTIRE AGREEMENT:** Owner and Renter have read this lease and agree that it contains the entire understanding of the parties regarding the rental of the subject apartment. The lease can only be changed in writing. The writing must be signed by both Owner and Renter.

If any part of this lease is determined to be unlawful, the remaining provisions of the lease will remain valid and in full force and effect.

Section 3 - PROVISIONS

INTRODUCTION:

This Rider is issued by the New York State Division of Housing and Community Renewal (“DHCR”), pursuant to the Rent Stabilization Law (“RSL”) and Rent Stabilization Code (“RSC”). It generally informs tenants and owners about their basic rights and responsibilities under the RSL.

This Rider does not contain every rule applicable to rent stabilized apartments. It is only informational and its provisions are not part of and do not modify the lease. However, it must be attached as an addendum to the lease. It does not otherwise replace or modify more exact or complete sections of the RSL, the RSC, any order of DHCR or other government agency authorized to fix rents, or any order of the New York City Rent Guidelines Board that govern this tenancy. The owner must comply with all applicable state, federal and local fair housing laws and nondiscrimination requirements.

The Appendix lists organizations which can provide assistance to tenants and owners who have inquiries, complaints or requests relating to subjects covered in this Rider.

Tenants should keep a copy of this Rider and of any lease they sign and carefully review the summary of lawful rent increases described. Any tenant who believes that the rent they are being charged may be unlawful may consider requesting a rent history of their apartment from DHCR (www.hcr.ny.gov). After reviewing the rent history, the tenant can make an informed decision whether to file form RA-89 “Tenant’s Complaint of Rent and/or Other Specific Overcharges in a Rent Stabilized Apartment.”

1. RENEWAL LEASES

The owner is entitled to increase the rent when a tenant renews a lease (“renewal lease”). Each year, effective October 1, the New York City Rent Guidelines Board sets the percentage of maximum permissible adjustment over the immediately preceding September 30th rent for leases which will begin during the year for which the guidelines order is in effect. The date a lease starts determines which guidelines order applies.

Guidelines orders provide increases for Renewal Leases. The renewing tenant has the choice of the length of the lease. Different percentages are set for rent increases for leases of one or two years. For additional information see DHCR Fact Sheet #26.

2. VACANCY LEASES

The owner is entitled to increase the previous legal regulated rent when a new tenant enters into a lease for the first time and this is referred to as a vacancy lease. The tenant may choose between a one or two-year lease term. The allowable adjustment is set by the Rent Guidelines Board. However, no more than one guideline board adjustment may be added per calendar year. Lawful Major Capital Improvement and Individual Apartment Improvements may also be added to the rent.

3. SECURITY DEPOSITS

An owner may collect a security deposit no greater than one month’s rent. When the rent is increased, the owner may charge an additional amount to bring the security deposit up to the full amount of the increased rent to which the owner is entitled. If a preferential rent is being charged, the amount of the security deposit collected can be no higher than the preferential rent.

A security deposit must be deposited in an interest bearing trust account in a banking organization in New York State. The tenant has the option of applying the interest to the rent, leaving the interest in the bank or receiving the interest annually. For additional information see DHCR Fact Sheet #9.

4. OTHER RENT INCREASES

In addition to guideline increases, the rent may be permanently increased based upon the following:

(A)Individual Apartment Improvements (IAI) – When an owner installs a new appliance or makes an improvement to an apartment the owner may be entitled to an IAI rent Increase. Tenant written consent for the improvement and rent increase is only required if the apartment is occupied by a tenant. It is not required for a vacant apartment.

In buildings with 35 units or less, the increase is limited to 1/168th of the cost of the improvement. In buildings with more than 35 units, the increase is limited to 1/180th of the cost of the improvement.

No more than three IAI increases can be collected in a 15-year period and the total cost of the improvements eligible for a rent increase calculation cannot exceed \$15,000. Work must be done by a licensed contractor and there is a prohibition on common ownership between the contractor and the owner. The apartment must be free and clear of any outstanding hazardous and immediately hazardous violations. The written consent provided by the tenant in occupancy must be on a DHCR form. A translated version in the top 12 languages spoken other than English will be made available for review on the DHCR website. Owners are required to maintain supporting documentation and photographs for all IAI installations, which commencing June 14, 2020 will be submitted to and stored by DHCR in an electronic format. The IAI rent increase is temporary, as it must be removed from the rent in 30 years and the legal rent must be adjusted at that time for guideline adjustments that were previously compounded on a rent that included the IAI.

The DHCR Lease Rider offered to vacancy lease tenants contain notification to the tenant of the right to request from the owner by certified mail Individual Apartment Improvements (IAI’s) supporting documentation at the time the lease is offered or within 60 days of the execution of the lease. The owner shall provide such documentation within 30 days of that request in person or by certified mail. A tenant who is not provided with that documentation upon demand may file form RA-90 “Tenant’s Complaint of Owner’s Failure to Renew Lease and/or Failure to Furnish a copy of a Signed Lease” to receive a DHCR Order that directs the furnishing of the IAI supporting documentation. (Refer to Rider Section 1, Individual Apartment Improvements.)

(B)Major Capital Improvements (MCI) – An owner is permitted a rental increase for building-wide major capital improvements, such as the replacement of a boiler or new plumbing. Major Capital Improvement rent increases are prohibited in buildings that contain 35% or fewer rent regulated apartments. The owner must file an application with DHCR and all supporting documentation is audited.

DHCR may issue an order denying the increase or granting it in part or in whole and serve the order on the owner and all tenants in the building. The rent increase approved in the DHCR order is collectible prospectively, on the first day of the first month 60 days after issuance. There are no retroactive rent increases. The collection of the increase is limited to a 2% cap/yearly phase-in. The 2% cap also applies to MCI rent increases not yet collected that were approved on or after June 14, 2012. Upon vacancy, the remaining balance of the increase can be added to the legal rent. In buildings with 35 or fewer units, the cost is amortized over a 12-year period. In buildings with more than 35 units, the cost is amortized over 12 1/2 years. The building must be free and clear of any outstanding hazardous and immediately hazardous violations. The MCI rent increase is temporary and it must be removed from the rent in 30 years and the legal rent must be adjusted at that time for guideline adjustments that were previously compounded on a rent that included the MCI rent increase.

Vacancy lease tenants are to be notified in their lease about pending MCI applications.

(C)Hardship – An owner may apply to increase the rents of all rent stabilized apartments based on hardship when:

1. the rents are not sufficient to enable the owner to maintain approximately the same average annual net income for a current three-year period as compared with the annual net income which prevailed on the average over the period 1968 through 1970, or for the first three years of operation if the building was completed since 1968, or for the first three years the owner owned the building if the owner cannot obtain records for the years 1968-1970; or
2. where the annual gross rental income does not exceed the annual operating expenses by a sum equal to at least 5% of such gross income.

If an application for a rent increase based on a major capital improvement or hardship is granted, the owner may charge the increase during the term of an existing lease only if the lease contains a clause specifically authorizing the owner to do so.

5. RENT REGISTRATION

(A)Initial

An owner must register an apartment's rent and services with DHCR when the building first becomes subject to the RSL and in adherence to any related regulatory agreements and/or tax benefit programs.

(B)Annual

The annual registration must be filed with DHCR no earlier than April 1st of each year. At the time of such filing, the owner must provide each tenant with the tenant's copy.

(C)Penalties

Failure to register in a timely manner shall result in penalties, rent reductions, and other remedies as permitted by law.

6. RENEWAL LEASES

A tenant has a right to a renewal lease, with certain exceptions (see Provision 10 of this Rider, "When An Owner May Refuse To Renew A Lease").

At least 90 days and not more than 150 days before the expiration of a lease, the owner is required to notify the tenant in writing that the lease will soon expire. That notice must also offer the tenant the choice of a one or two-year lease at the permissible guidelines adjustment. After receiving the notice, the tenant always has 60 days to accept the owner's offer, whether or not the offer is made within the above time period, or even beyond the expiration of the lease term.

Any renewal lease, except for the amount of rent and duration of its term, is required to be on the same terms and conditions as the expired lease, and a fully executed copy of the same must be provided to the tenant within 30 days from the owner's receipt of the renewal lease or renewal form signed by the tenant. If the owner does not return a copy of such fully executed Renewal Lease Form to the tenant within 30 days of receiving the signed renewal lease from the tenant, the tenant is responsible for payment of the new lease rent and may file a "Tenant's Complaint of Owner's Failure to Renew Lease and/or Failure to Furnish a Copy of a Signed Lease" (DHCR Form RA-90). DHCR shall order the owner to furnish the copy of the renewal lease or form. If the owner does not comply within 20 days of such order, the owner shall not be entitled to collect a rent guideline adjustment until the lease or form is provided.

It is illegal for an owner to require a rent stabilized tenant to provide immigration status information or a Social Security number as a condition to renewing the lease. (For additional information on the rights of foreign-born tenants see DHCR Fact Sheet #45.)

If a tenant wishes to remain in occupancy beyond the expiration of the lease, the tenant may not refuse to sign a proper renewal lease. If the tenant does refuse to sign a proper renewal lease, he or she may be subject to an eviction proceeding.

An owner may add to a renewal lease the following clauses even if such clauses were not included in the tenant's prior lease:

- (A)**the rent may be adjusted by the owner on the basis of Rent Guidelines Board or DHCR Orders or orders of other government agencies authorized to fix rents;
- (B)**if the owner or the lease grants permission to sublet or assign, the owner may charge a sublet allowance for a sub-tenant or assignee, provided the prime lease is a renewal lease. However, this sublet allowance may be charged even if such clause is not added to the renewal lease. (Subletting is discussed in Provision 9 of this Rider);
- (C)(1)** if the building in which the apartment is located is receiving 421-a (1-15) tax benefits, a clause may be added providing for an annual or other periodic rent increase over the initial rent at an average rate of not more than 2.2 % of the amount of such initial rent per annum not to exceed nine 2.2 percent increases. Such charge shall not become part of the legal regulated rent; however, the cumulative 2.2 percent increases charged prior to the termination of tax benefits may continue to be collected as a separate charge;
- (2)** provisions for rent increases if authorized under Section 423 of the Real Property Tax Law: a clause may be added to provide for an annual or other periodic rent increase over the legal regulated rent if

authorized by Section 423 of the Real Property Tax Law.

7. RENEWAL LEASE SUCCESSION RIGHTS

In the event that the tenant has permanently vacated the apartment at the time of the renewal lease offer, family members who have lived with the tenant in the apartment as a primary residence for at least two years immediately prior to such permanent vacating (one year for family members who are senior citizens and disabled persons), or from the inception of the tenancy or commencement of the relationship, if for less than such periods, are entitled to a renewal lease. A tenant shall be considered to have permanently vacated the apartment when the tenant has permanently ceased residing in the apartment.

“Family Member” includes the spouse, son, daughter, stepson, stepdaughter, father, mother, stepfather, stepmother, brother, sister, grandfather, grandmother, grandson, granddaughter, father-in-law, mother-in-law, son-in-law or daughter-in-law of the tenant.

“Family member” may also include any other person living with the tenant in the apartment as a primary residence who can prove emotional and financial commitment and interdependence between such person and the tenant. Examples of evidence which is considered in determining whether such emotional and financial commitment and interdependence existed are set forth in the Rent Stabilization Code. Renewal lease succession rights are also discussed in detail in DHCR Fact Sheet #30.

8. SERVICES

Written notification to the owner or managing agent should be given but is **NOT** required, before filing a decrease in service complaint with DHCR. Owners who have not received prior written notification from the tenant will however, be given additional time to respond to a complaint filed with DHCR. Applications based on a lack of heat or hot water must be accompanied by a report from the appropriate city agency.

All emergency conditions do not require prior written notification. These include but are not limited to: vacate order (5 day notification), fire (5 day notification), no water apartment wide, no operable toilet, collapsed or collapsing ceiling or walls, collapsing floor, no heat/hot water apartment wide (violation required), broken or inoperative apartment front door lock, all elevators inoperative, no electricity apartment wide, window to fire escape (does not open), water leak (cascading water, soaking electrical fixtures), window-glass broken (not cracked), broken/unusable fire escapes, air conditioner broken (summer season). Complaints to DHCR on the appropriate DHCR form that cite any of these emergency conditions will be treated as first priority and will be processed as quickly as possible. **It is recommended that tenants use a separate DHCR form for any problematic conditions that are not on this emergency condition list.**

Certain conditions, examples of which are set forth in the Rent Stabilization Code, which have only a minimal impact on tenants, do not affect the use and enjoyment of the premises, and may exist despite regular maintenance of services. These conditions do not rise to the level of a failure to maintain required services. The passage of time during which a disputed service was not provided without complaint may be considered in determining whether a condition is de minimis. For this purpose, the passage of 4 years or more will be considered presumptive evidence that the condition is de minimis.

The amount of any rent reduction ordered by DHCR shall be reduced by any credit, abatement or offset in rent which the tenant has received pursuant to Sec. 235-b of the Real Property Law (“Warranty of Habitability”) that relates to one or more conditions covered by the DHCR Order. For additional information see DHCR Fact Sheets #3, #14 and #37.

9. SUBLETTING AND ASSIGNMENT

A tenant has the right to sublet his/her apartment, even if subletting is prohibited in the lease, provided that the tenant complies strictly with the provisions of Real Property Law Section 226-b. Tenants who do not comply with these requirements may be subject to eviction proceedings. Compliance with Section 226-b is not determined by DHCR, but by a court of competent jurisdiction. If a tenant in occupancy under a renewal lease sublets his/her apartment, the owner may temporarily increase the rent by the current rent guidelines board adjustment, regardless of whether the owner has increased the rent by the guidelines board amount within the prior twelve months. This charge may be passed on to the sub-tenant. However, upon termination of the sublease, the Legal Regulated Rent shall revert to the Legal Regulated Rent without such temporary increase. The rent increase is the allowance provided by the NYC Rent Guidelines Board available when the tenant’s lease commenced, and it takes effect when the subletting takes place.

A tenant who sublets his/her apartment is entitled to charge the sub-tenant the rent permitted under the Rent Stabilization Law, and may charge a 10% surcharge payable to the tenant only if the apartment sublet is fully furnished. Where the tenant charges the sub-tenant any additional rent above such surcharge and sublet allowance, if applicable, the tenant shall be required to pay to the sub-tenant a penalty of three times the rent overcharge, and may also be required to pay interest and attorney’s fees. The tenant may also be subject to an eviction proceeding.

Assignment of Leases

In an assignment, a tenant transfers the entire remainder of his or her lease to another person (the assignee), and gives up all of his/her rights to reoccupy the apartment.

Pursuant to the provisions of Real Property Law Section 226-b, a tenant may not assign his/her lease without the written consent of the owner, unless the lease expressly provides otherwise. If the owner consents to the assignment of the lease, the owner may increase the rent as if the assignee was entering into a new lease following permanent vacancy. Such increase shall remain part of the Legal Regulated Rent for any subsequent renewal lease.

An owner is not required to have reasonable grounds to refuse to consent to the assignment. However, if the owner unreasonably refuses consent, the owner must release the tenant from the remainder of the lease, if the tenant, upon 30 days’ notice to the owner, requests to be released.

If the owner refuses to consent to an assignment and does have reasonable grounds for withholding consent, the tenant cannot assign and the owner is not required to release the tenant from the lease. For additional information see, DHCR Fact Sheet #7.

10. WHEN AN OWNER MAY REFUSE TO RENEW A LEASE

As long as a tenant pays the lawful rent to which the owner is entitled, the tenant, except for the specific grounds stated in the Rent Stabilization Law and Rent Stabilization Code, is entitled to remain in the apartment. An owner may not harass a tenant by engaging in an intentional course of conduct intended to make the tenant move from his/ her apartment.

Below are listed some but not all grounds for eviction:

Without DHCR consent, the owner may refuse to renew a lease and bring an eviction action in Civil Court at the expiration of the lease on any of the following grounds:

- (A) the tenant refuses to sign a proper renewal lease offered by the owner;
- (B) the owner, because of immediate and compelling necessity, seeks to recover the apartment in good faith for personal use and occupancy as a primary residence or for the personal use and occupancy as a primary residence of members of the owner's immediate family; Note that the owner is only permitted to do this for one apartment in a building subject to regulation.
- (C) the tenant does not occupy the apartment as his or her primary residence. The owner must notify the tenant in writing at least 90 and not more than 150 days prior to the expiration of the lease term of the owner's intention not to renew the lease. However, the rent regulations and the Social Services Law provide added protection for victims of domestic violence.

With DHCR consent, the owner may refuse to renew a lease upon any of the following grounds:

- (A) the owner seeks in good faith to recover possession of the apartment for the purpose of demolishing the building and constructing a new building; or
- (B) the owner requires the apartment or the land for the owner's own use in connection with a business which the owner owns and operates.

A tenant will be served with a copy of the owner's application and has a right to object. If the owner's application is granted, the owner may bring an eviction action in Civil Court.

11. EVICTION WHILE THE LEASE IS IN EFFECT

The owner may bring an action in Civil Court to evict a tenant during the term of the lease for the grounds stated in the Rent Stabilization Law and Rent Stabilization Code.

Below are listed some but not all grounds for eviction:

- (A) does not pay rent;
- (B) is violating a substantial obligation of the tenancy;
- (C) is committing or permitting a nuisance;
- (D) is illegally using or occupying the apartment;
- (E) has unreasonably refused the owner access to the apartment for the purpose of making necessary repairs or improvements required by law or authorized by DHCR, or for the purpose of inspection or showing. The tenant must be given at least 5 days' notice of any such inspection or showing, to be arranged at the mutual convenience of the tenant and owner, so to enable the tenant to be present at the inspection or showing. A tenant cannot be required to permit access for inspection or showing if such requirement would be contrary to the lease.

Tenants are cautioned that causing violations of health, safety, or sanitation standards of housing maintenance laws, or permitting such violations by a member of the family or of the household or by a guest, may be the basis for a court action by the owner.

12. COOPERATIVE AND CONDOMINIUM CONVERSION

Tenants who do not purchase their apartments under a Non-Eviction Conversion Plan continue to be protected by Rent Stabilization. Conversions are regulated by the New York State Attorney General. Any cooperative or condominium conversion plan accepted for filing by the New York State Attorney General's Office will include specific information about tenant rights and protections. An informational booklet about the general subject of conversion is available from the New York State Attorney General's Office.

13. SENIOR CITIZENS AND DISABILITY RENT INCREASE EXEMPTION PROGRAM

Tenants or their spouses who are 62 years of age, or older, or are persons with a disability, and whose household income level does not exceed the established income level may qualify for an exemption from guideline adjustments, hardship rent increases, major capital improvement rent increases and rent reductions for DHCR approved electrical sub-metering conversions. This exemption will only be for a portion of the increase which causes the tenant's rent to exceed one-third of the "net" household income, and is not available for increases based on new services or equipment within the apartment. Questions concerning the Senior Citizen Rent Increase Exemption (SCRIE) program and the Disability Rent Increase Exemption (DRIE) program can be addressed to the New York City Department of Finance.

When a senior citizen or person with a disability is granted a rent increase exemption, the owner may obtain a real estate tax credit from New York City equal to the amount of the tenant's exemption. Notwithstanding any of the above, a senior citizen or person with a disability who receives a rent increase exemption is still required to pay a full month's rent as a security deposit. For additional information see DHCR Fact Sheet #20 and #21.

14. SPECIAL CASES AND EXCEPTIONS

Some special rules relating to stabilized rents and required services may apply to newly constructed buildings subject to regulatory agreement and/or which receive tax abatement or exemption, and to buildings rehabilitated under certain New York City, New York State, federal financing, mortgage insurance programs, or project based vouchers. The supervising government agency that sets initial legal rents may also set preferential rents. Regulatory agreements issued and approved by a state or municipal agency or other designated party may provide for actual rents that are higher than legal rents and preferential rents, as long as a government program provides rental assistance for the apartment. The tenant share is governed by the agency providing rental assistance and the regulatory agreement. The actual rent must also be separately registered. When the rental assistance ends, either during a tenancy or upon vacancy, the lesser of the lower legal rent or preferential rent plus any lawful adjustments or a lower rent established by the regulatory agreement must be

charged. This requirement is stated in plain language in DHCR Notice RA-LR3, which must be attached to all leases when higher actual rents are being charged. The rules mentioned in this Rider do not necessarily apply to rent stabilized apartments located in hotels or permanent housing accommodations with government contracted services to vulnerable individuals or individuals with disabilities who are or were homeless or at risk of homelessness. A separate Hotel Rights Notice informing permanent hotel tenants and owners of their basic rights and responsibilities under the Rent Stabilization Law is available from DHCR.

15. AIR CONDITIONER SURCHARGES

Owners are authorized to collect surcharges from rent stabilized tenants for the use of air conditioners. DHCR issues an annual update to an Operational Bulletin in which the lawful surcharges are established for the year. A surcharge amount is established for tenants in buildings where electricity is included in the rent. These surcharges shall not become part of the legal regulated rent. Surcharges for tenants in buildings where the tenant pays for the electric utility service are prohibited. (See Operational Bulletin 84-4 and Fact Sheet #27).

16. SURCHARGES FOR TENANT INSTALLED WASHING MACHINES, DRYERS AND DISHWASHERS

Unless a lease provides otherwise, owners are not required to allow tenants to install washing machines, dryers or dishwashers. Where a tenant requests permission from the owner to install such appliance or appliances, whether permanently installed or portable, and the owner consents, the owner may collect a surcharge or surcharges. DHCR issues periodic updates to an Operational Bulletin that sets forth surcharges for washing machines, dryers and dishwashers. One set of surcharges is established for tenants in buildings where electricity is included in the rent. Another set of surcharges is established for tenants who pay their own electricity. Such surcharges shall not become part of the rent. (See Operational Bulletin 2005-1).

17. PREFERENTIAL RENT

A preferential rent is a rent which an owner agrees to charge that is lower than the legal regulated rent that the owner could lawfully collect. The legal regulated rent is required to be written into the vacancy lease and all subsequent renewal leases in order to be preserved. The HSTPA effective June 14, 2019 while continuing to allow for both preferential and legal rents to be raised at the time of a lease renewal additionally requires that any preferential rent already being collected must continue to be offered at the time of a lease renewal. The rent increase to be collected at a lease renewal on the preferential rent must be set by applying the applicable guideline adjustment to the preferential rent. The legal rent cannot be collected until a vacancy occurs and can be offered to the next new vacancy lease tenant, provided that both the legal rent and the preferential rent are listed in the initial lease offering the preferential rent and every subsequent lease offering the preferential rent until the vacancy. Exceptions to these requirements may apply to preferential rents established by regulatory agreements.

19. FEES

There are certain fees that owners may charge tenants separate and apart from the rent for the apartment. However, fees of any kind do not become part of the legal rent or preferential rent and cannot be added to it for the purpose of calculating lease renewal increases.

Lawful fees:

Late fees where a clause in the initial vacancy lease allows for them to be charged by a certain specific date and the late fees are no more than the lesser of \$50 or 5% of the monthly rent currently being charged and collected. Preferential rents, which may also be referred to as "on-time rent," that are conditioned on prompt payment of rent or terminate upon late payment of rent are not allowed.

Legal fees can only be collected if ordered by a judge in court.

Reasonable fees for a background check when applying to be a tenant which cannot exceed \$20 per tenant subject to the background check.

Fees for window guards (\$10 per guard) are detailed in DHCR Fact Sheet #25.

Fees for smoke alarms, carbon monoxide detectors and natural gas detectors are established by the local municipality.

Actual fees/charges incurred for insufficient funds for a tenant's rent check that did not clear (bounced checks), if this was provided for in the initial lease.

Fees imposed by the NYC agency (Ex-HPD, HDC) that has oversight authority pursuant to a regulatory agreement.

Fees for Air Conditioners and Tenant-installed Washing Machines, Dryers and Dishwashers are detailed in DHCR's Operational Bulletin 84-4, Fact Sheet #27, and DHCR Operational Bulletin 2005-1.

Fees for Sub-Metering or other utility services. Fees for Sub-Metering are detailed in DHCR Operational Bulletin 2014-1.

Unlawful Fees:

Fees for background checks on rent stabilized tenants in occupancy.

Fees cannot be charged to the tenant for a background check on a prospective roommate or additional family member.

Pet security deposit or fees proposed for a service animal or that are in violation of fair housing law.

Effective November 21, 2022, fees (surcharges) for tenant-installed air conditioning units if the tenant pays for the electric utility service.

Fees for owner installed air conditioner brackets are prohibited.

Fees including but not limited to damage fees, repair fees of any kind including those incurred for removal of municipal violations, painting fees, cleaning fees and other fees not established by or in excess of the amount allowed by the rent regulations or other municipal regulations are prohibited. Please note that the inappropriateness of imposing these fees through the lease may not necessarily prevent an owner from independently seeking other relief in court for objectionable conduct or damages.

The \$20 fee that must be paid by owners to the municipality for each stabilized apartment can not be passed along as a fee to the tenant.

Tenants who have been billed for fees and/or surcharges that they may believe are unlawful or untimely, have the right to file a complaint of rent overcharge on DHCR form RA-89 and/or pursue remedies in court.

These 2.2% Increases will be in addition to any other increases that may be permitted under the Rent Regulations, but the 2.2% Increase will not be included in base rent while the apartment is subject to the Rent Regulations. BASIC FIRE PREVENTION AND FIRE PREPAREDNESS MEASURES

These are fire safety tips that everybody should follow:

1. Every apartment should be equipped with at least one smoke detector. Check them periodically to make sure they work. Most smoke detectors can be tested by pressing the test button. Replace the batteries in the spring and fall when you move your clocks forward or back an hour, and whenever a smoke detector chirps to signal that its battery is low. The smoke detector should be replaced on a regular basis in accordance with the manufacturer's recommendation, but at least once every ten years.
2. Carelessly handled or discarded cigarettes are the leading cause of fire deaths. Never smoke in bed or when you are drowsy, and be especially careful when smoking on a sofa. Be sure that you completely extinguish every cigarette in an ashtray that is deep and won't tip over. Never leave a lit or smoldering cigarette on furniture.
3. Matches and lighters can be deadly in the hands of children. Store them out of reach of children and teach them about the danger of fire.
4. Do not leave cooking unattended. Keep stove tops clean and free of items that can catch on fire. Before you go to bed, check your kitchen to ensure that your oven is off and any coffeepot or teapot is unplugged.
5. Never overload electrical outlets. Replace any electrical cord that is cracked or frayed. Never run extension cords under rugs. Use only power strips with circuit-breakers.
6. Keep all doorways and windows leading to fire escapes free of obstructions, and report to the owner any obstructions or accumulations of rubbish in the hallways, stairwells, fire escapes or other means of egress.
7. Install window gates only if it is absolutely necessary for security reasons. Install only approved window gates. Do not install window gates with key locks. A delay in finding or using the key could cost lives. Maintain the window gate's opening device so it operates smoothly. Familiarize yourself and the members of your household with the operation of the window gate.
8. Familiarize yourself and members of your household with the location of all stairwells, fire escapes and other means of egress.
9. With the members of your household, prepare an emergency escape route to use in the event of a fire in the building. Choose a meeting place a safe distance from your building where you should all meet in case you get separated during a fire.
10. Exercise care in the use and placement of fresh cut decorative greens, such as Christmas trees and holiday wreaths. If possible, keep them planted or in water. Do not place them in public hallways or where they might block egress from your apartment if they catch on fire. Keep them away from any flame, including fireplaces. Do not keep for extended period of time; as they dry, decorative greens become easily combustible.

BUILDING INFORMATION

Building Construction

In a fire emergency, the decision to leave or to stay in your apartment will depend in part on the type of building you are in.

Residential buildings built before 1968 are generally classified either as "fireproof" or "non-fireproof." Residential buildings built in or after 1968 are generally classified either as "combustible" or "non-combustible". The type of building construction generally depends on the size and height of the building.

A "non-combustible" or "fireproof" building is a building whose structural components (the supporting elements of the building, such as steel or reinforced concrete beams and floors) are constructed of materials that do not burn or are resistant to fire and therefore will not contribute to the spread of the fire. In such buildings, fires are more likely to be contained in the apartment or space in which they start and less likely to spread inside the building walls to other apartments and floors. THIS DOES NOT MEAN THAT THE BUILDING IS IMMUNE TO FIRE. While the structural components of the building may not catch fire, all of the contents of the building (including furniture, carpeting, wood floors, decorations and personal belongings) may catch on fire and generate flame, heat and large amounts of smoke, which can travel throughout the building, especially if apartment or stairwell doors are left open.

A "combustible" or "non-fireproof" building has structural components (such as wood) that will burn if exposed to fire and can contribute to the spread of the fire. In such buildings, the fire can spread inside the building walls to other apartments and floors, in addition to the flame, heat and smoke that can be generated by the burning of the contents of the building.

Be sure to check Part I (Building Information Section) of this fire safety plan to see what type of building you are in.

Means of Egress

All residential buildings have at least one means of egress (way of exiting the building), and most have at least two. There are several different types of egress:

Interior Stairs: All buildings have stairs leading to the street level. These stairs may be enclosed or unenclosed. Unenclosed stairwells (stairs that are not separated from the hallways by walls and doors) do not prevent the spread of flame, heat and smoke. Since flame, heat and smoke generally rise, unenclosed stairwells may not ensure safe egress in the event of a fire on a lower floor. Enclosed stairs are more likely to permit safe egress from the building, if the doors are kept closed. It is important to get familiar with the means of egress available in your building.

Exterior Stairs: Some buildings provide access to the apartments by means of stairs and corridors that are outdoors. The fact that they are outdoors and do not trap heat and smoke enhances their safety in the event of a fire, provided that they are not obstructed.

Fire Tower Stairs: These are generally enclosed stairwells in a "tower" separated from the building by air shafts open to the outside. The open air shafts allow heat and smoke to escape from the building.

Fire Escapes: Many older buildings are equipped with a fire escape on the outside of the building, which is accessed through a window or balcony. Fire escapes are considered a "secondary" or alternative means of egress, and are to be used if the primary means of egress (stairwells) cannot be safely used to exit the building because they are obstructed by flame, heat or smoke.

Exits: Most buildings have more than one exit. In addition to the main entrance to the building, there may be separate side exits, rear exits, basement exits, roof exits and exits to the street from stairwells. Some of these exits may have alarms. Not all of these exits may lead to the street. Roof exits may or may not allow access to adjoining buildings.

Be sure to review Part I (Building Information Section) of this fire safety plan and familiarize yourself with the different means of egress from your building.

Fire Sprinkler Systems

A fire sprinkler system is a system of pipes and sprinkler heads that when triggered by the heat of a fire automatically discharges water that extinguishes the fire. The sprinkler system will continue to discharge water until it is turned off. When a sprinkler system activates, an alarm is sounded.

Sprinkler systems are very effective at preventing fire from spreading beyond the room in which it starts. However, the fire may still generate smoke, which can travel throughout the building.

Residential buildings are generally not required to have fire sprinkler systems. Some residential buildings are equipped with sprinkler systems, but only in compactor chutes and rooms or boiler rooms. All apartment buildings constructed or substantially renovated after March 1999 will be required by law to be equipped with fire sprinkler systems throughout the building.

Be sure to review Part I (Building Information Section) of this fire safety plan to learn whether your building is equipped with fire sprinkler systems.

Interior Fire Alarm Systems

1328 Fulton

Although generally not required, some residential buildings are equipped with interior fire alarm systems that are designed to warn building occupants of a fire in the building. Interior fire alarm systems generally consist of a panel located in a lobby or basement, with manual pull stations located near the main entrance and by each stairwell door. Interior fire alarm systems are usually manually-activated (must be pulled by hand) and do not automatically transmit a signal to the Fire Department, so a telephone call must still be made to 911 or the Fire Department dispatcher. Do not assume that the Fire Department has been notified because you hear a fire alarm or smoke detector sounding in the building.

Be sure to review Part I (Building Information Section) of this fire safety plan to learn whether your building is equipped with an interior fire alarm system and whether the alarm is transmitted to the Fire Department, and familiarize yourself with the location of the manual pull stations and how to activate them in the event of a fire.

Public Address Systems

Although generally not required, some residential buildings are equipped with public address systems that enable voice communications from a central location, usually in the building lobby. Public address systems are different from building intercoms, and usually consist of loudspeakers in building hallways and/or stairwells.

Be sure to review Part I (Building Information Section) of this fire safety plan to learn whether your building is equipped with a public address system.

EMERGENCY FIRE SAFETY AND EVACUATION INSTRUCTIONS

IN THE EVENT OF A FIRE, FOLLOW THE DIRECTIONS OF FIRE DEPARTMENT PERSONNEL. HOWEVER, THERE MAY BE EMERGENCY SITUATIONS IN WHICH YOU MAY BE REQUIRED TO DECIDE ON A COURSE OF ACTION TO PROTECT YOURSELF AND THE OTHER MEMBERS OF YOUR HOUSEHOLD.

THIS FIRE SAFETY PLAN IS INTENDED TO ASSIST YOU IN SELECTING THE SAFEST COURSE OF ACTION IN SUCH AN EMERGENCY. PLEASE NOTE THAT NO FIRE SAFETY PLAN CAN ACCOUNT FOR ALL OF THE POSSIBLE FACTORS AND CHANGING CONDITIONS; YOU WILL HAVE TO DECIDE FOR YOURSELF WHAT IS THE SAFEST COURSE OF ACTION UNDER THE CIRCUMSTANCES.

General Emergency Fire Safety Instructions

1. Stay calm. Do not panic. Notify the Fire Department as soon as possible. Firefighters will be on the scene of a fire within minutes of receiving an alarm.
2. Because flame, heat and smoke rise, generally a fire on a floor below your apartment presents a greater risk to your safety than a fire on a floor above your apartment.
3. Do not overestimate your ability to put out a fire. Most fires cannot be easily or safely extinguished. Do not attempt to put the fire out once it begins to quickly spread. If you attempt to put a fire out, make sure you have a clear path of retreat from the room.
4. If you decide to exit the building during a fire, close all doors as you exit to confine the fire never use the elevator. It could stop between floors or take you to where the fire is.
5. Heat, smoke and gases emitted by burning materials can quickly choke you. If you are caught in a heavy smoke condition, get down on the floor and crawl. Take short breaths, breathing through your nose.
6. If your clothes catch fire, don't run. Stop where you are, drop to the ground, cover your face with your hands to protect your face and lungs and roll over to smother the flames.

Evacuation Instructions If The Fire Is In Your Apartment**(All Types of Building Construction)**

1. Close the door to the room where the fire is, and leave the apartment.
2. Make sure EVERYONE leaves the apartment with you.
3. Take your keys.
4. Close, but do not lock, the apartment door.
5. Alert people on your floor by knocking on their doors on your way to the exit.
6. Use the nearest stairwell to exit the building.
7. DO NOT USE THE ELEVATOR.
8. Call 911 once you reach a safe location. Do not assume the fire has been reported unless firefighters are on the scene.
9. Meet the members of your household at a predetermined location outside the building. Notify responding firefighters if anyone is unaccounted for.

Evacuation Instructions if The Fire Is Not In Your Apartment

"NON-COMBUSTIBLE" OR "FIREPROOF" BUILDINGS:

- 1.** Stay inside your apartment and listen for instructions from firefighters unless conditions become dangerous.
- 2.** If you must exit your apartment, first feel the apartment door and doorknob for heat. If they are not hot, open the door slightly and check the hallway for smoke, heat or fire.

LEASE/COMMENCEMENT OF OCCUPANCY NOTICE FOR INDOOR
ALLERGEN HAZARDS

- 1. The owner of this building is required, under New York City Administrative Code section 27- 2017.1 et seq., to make an annual inspection for indoor allergen hazards (such as mold, mice, rats, and cockroaches) in your apartment and the common areas of the building. The owner must also inspect if you inform him or her that there is a condition in your apartment that is likely to cause an indoor allergen hazard, or you request an inspection, or the Department has issued a violation requiring correction of an indoor allergen hazard for your apartment. If there is an indoor allergen hazard in your apartment, the owner is required to fix it, using the safe work practices that are provided in the law. The owner must also provide new tenants with a pamphlet containing information about indoor allergen hazards.
- 2. The owner of this building is also required, prior to your occupancy as a new tenant, to fix all visible mold and pest infestations in the apartment, as well as any underlying defects, like leaks, using the safe work practices provided in the law. If the owner provides carpeting or furniture, he or she must thoroughly clean and vacuum it prior to occupancy. This notice must be signed by the owner or his or her representative, and state that he or she has complied with these requirements.

I, **Fulton Street Development LLC** (owner or representative name in print), certify that I have complied with the requirements of the New York City Administrative Code section 27- 2017.5 by removing all visible mold and pest infestations and any underlying defects, and where applicable, cleaning and vacuuming any carpeting and furniture that I have provided to the tenant. I have performed the required work using the safe work practices provided in the law.

What Every Tenant Should Know About Indoor Allergens (Local Law 55 of 2018)

Allergens are things in the environment that make indoor air quality worse. They can cause asthma attacks or make asthma symptoms worse. Common indoor allergens, or triggers, include cockroaches and mice; mold and mildew; and chemicals with strong smells, like some cleaning products. Environmental and structural conditions, like leaks and cracks in walls often found in poorly maintained housing, lead to higher levels of allergens.

New York City law requires that landlords take steps to keep their tenants’ homes free of pests and mold. This includes safely fixing the conditions that cause these problems. Tenants also play a role in preventing indoor allergens.

Tenants should:

- Keep homes clean and dry
- Place food in sealed containers, keep counters and sinks clean, and get rid of clutter such as newspapers and paper bags
- Use garbage cans with tight-fitting lids
- Take garbage and recycling out every day, and tie up garbage bags before putting them in compactor chutes
- Avoid using pesticides and chemicals with strong smells (e.g., cleaning products, air fresheners, etc.)
- Tell landlords right away if there are pests, water leaks, or holes or cracks in the walls and floors
- Let building staff into homes to make any needed repairs
- Call **311** if landlords do not fix the problem or if repair work is being done unsafely

If you are a tenant and you or your child has asthma, and there are pests or mold in your home, your doctor can request a free home environmental inspection for you through the New York City Health Department’s Online Registry. Talk to your doctor or call 311 to learn more.

For more information about building owner and landlord responsibilities and safely fixing indoor allergen hazards, see the reverse side of this handout.

What Landlords Must Do to Keep Homes Free of Pests and Mold

New York City law requires that landlords of buildings with three or more apartments – or buildings of any size where a tenant has asthma – take steps to keep tenant homes free of pests and mold. This includes safely fixing the conditions that cause these problems.

Landlords must:

- **Inspect** every apartment and the building’s common areas for cockroach and rodent infestations, mold and the conditions that lead to these hazards, at least once a year and more often if necessary. Landlords must also respond to tenant complaints or requests for an inspection.
- **Use integrated pest management (IPM) practices** to safely control pests and fix building-related issues that lead to pest problems.
 - ✓ Remove pest nests and thoroughly clean pest waste and other debris using a HEPA vacuum. Make sure to limit the spread of dust when cleaning.
 - ✓ Repair and seal any holes, gaps or cracks in walls, ceilings, floors, molding, base boards, around pipes and conduits, and around and within cabinets.
 - ✓ Attach door sweeps to all doors that lead to hallways, basements or outside.
 - ✓ Remove all water sources for pests by repairing drains, faucets and other plumbing materials that collect water or leak.
 - ✓ Use pesticides sparingly. If pesticides must be used to correct a violation, they must be applied by a New York State Department of Environmental Conservation–licensed pest professional.
- **Remove indoor mold** and safely fix the problems that cause mold.
 - ✓ Remove any standing water, and fix leaks or moisture conditions.
 - ✓ Move or cover furniture, and seal off doorways, ventilation ducts and other openings securely with plastic sheeting.
 - ✓ Gently spray the moldy area with soap or detergent and water before cleaning to limit the spread of dust.
 - ✓ Clean the work area with wet mops or HEPA vacuums before work starts, at the end of each day and after all repair work is completed.
 - ✓ Dry the cleaned area completely.
 - ✓ Throw away all cleaning-related waste in heavy-duty plastic bags and seal securely.
 - ✓ To clean 10 or more square feet of mold in a building with 10 or more apartments, landlords **must** hire a New York State Department of Labor–licensed mold assessor and remediator. Per New York City Administrative Code section 24-154 and New York State Labor Law Article 32, assessors and remediators must submit paperwork to the New York City Department of Environmental Protection.
- Make sure vacant apartments are thoroughly **cleaned and free of pests and mold** before a new tenant moves in.
- Provide a copy of this fact sheet and a notice with each tenant’s lease that clearly states the landlord’s and tenant’s responsibilities to keep the building free of indoor allergens.

MOHAMED AND MAAB HASSAN (TENANT) REGARDING APARTMENT PH106 IN THE PREMISES LOCATED AT 1328 FULTON STREET, BROOKLYN, NY 11216. IN THE EVENT OF ANY INCONSISTENCY BETWEEN THE PROVISIONS OF THIS RIDER AND THE PROVISIONS OF THE LEASE TO WHICH THIS RIDER IS ANNEXED, THE PROVISIONS OF THIS RIDER SHALL GOVERN AND BE BINDING. THE PROVISIONS OF THIS RIDER SHALL BE CONSTRUED TO BE IN ADDITION TO AND NOT IN LIMITATION OF THE RIGHTS OF THE OWNER AND THE OBLIGATIONS OF THE TENANT.

**RIDER TO LEASE
SMOKE FREE BUILDING**

1. **A.** This is a Smoke Free Building. Accordingly, as a new tenant in the Building, Tenant understands and agrees that Tenant is strictly prohibited from smoking any substance in and around the Building, as detailed below.
2. **B.** Tenant acknowledges that scientific studies have shown that secondhand smoke, or smoke created by the burning of tobacco or other substances by one individual which is present in the environment and which may be inhaled by other individuals, poses a significant health risk. Due to the increased risk of fire and the known health effects of secondhand smoke, Tenant is strictly prohibited from smoking any substance in the entire Building, including inside the Apartment, all common areas and areas within 15 feet of entrances, windows, doors and air-intake units. This rule applies to Tenant, all Registered Occupants, and any of Tenant's guests, invitees, contractors or other persons present in the Building or Apartment at the invitation of any person(s) residing in the Apartment.
- (1) "Smoking" means inhaling, exhaling, burning or carrying any lighted cigar, cigarette, pipe or any form of lighted object or device that contains tobacco or any other substance, or any "e-cigarette" or vapor device.
- (2) The failure to comply this Article shall constitute a violation of a substantial obligation of Tenant's tenancy.
3. **C.** Tenant(s) acknowledges and understands that smoking in the Apartment and/or in any other area of the Building is a breach of a material obligation of this Lease which shall entitle the Owner to commence a summary proceeding or other litigation to evict the Tenant(s) from the Apartment. Additionally, Tenant's covenants contained in this Article shall be enforceable in a court of competent jurisdiction by a decree of specific performance and by appropriate injunctive relief, all in accordance with applicable law. In addition, Tenant(s) agrees to indemnify and hold Owner harmless from and against any and all loss or damage which Owner may incur as a result of the breach by Tenant(s) of any of the foregoing restrictions, including, without limitation, any withholding of rent by tenants of the building, and reasonable attorneys' fees and disbursements incurred by Owner in connection with any litigation or negotiation with Tenant(s) or any other tenants of the Building with respect to the foregoing. Any and all of the Tenant's monetary obligations to Owner resulting from Tenant's agreement to indemnify and hold Owner harmless shall be collectible as Additional Rent.
4. **D.** Tenant shall inform Tenant's guests of the no-smoking policy. Tenant shall promptly give Owner a written statement of any incident where smoke from tobacco products or other lighted products is migrating into the Apartment from outside the Apartment. However, the failure by Owner to respond to a complaint by Tenant regarding smoke shall not be construed as a breach of the warranty of habitability, or the covenant of quiet enjoyment, nor shall it be deemed to be a constructive eviction of Tenant.
5. **E.** Nothing in this article shall make Owner or its agents and employees the guarantor of Tenant's health or of the smoke free condition of any Apartment or common area of the Building. Tenant acknowledges that Owner's decision to make this a Smoke Free Building does not in any way change the standard of care that the Owner or managing agent would have to Tenant or anyone else residing in the Apartment, nor shall it impose any obligation on Owner to render the Building and the Apartment more habitable or improved in terms of air quality standards than any other rental premises.

RIDER TO LEASE: SUBMETERING

1328 Fulton Street, Brooklyn, NY 11216

1. The Tenant acknowledges that, on November 22, 2017, in **Case 17-E-0112: Notice of Intent of Fulton Street Development LLC to Submeter Electricity at 1328 Fulton Street, Brooklyn, New York 11216, Located In the Territory of Consolidated Edison Company of New York, Inc.,** the New York State Public Service Commission ("PSC") approved the Building to submeter electricity to the Building's residential units (individually, the "Apartment" and collectively the "Apartments"). The Tenant further acknowledges that the Tenant will be required to pay **Metro Greenlight Energy South LLC** (the "Submeterer") for the use of electricity at the Apartment on the basis of a separate submetered charge that will be billed to the Tenant by the Submeterer or its third-party billing company on a monthly basis.
2. In the event of non-payment of electric charges, the Submeterer shall afford the Tenant all notices and protections available pursuant to the Home Energy Fair Practices Act ("HEFPA") before any action(s) based on such non-payment, including, but not limited to, termination of service, is commenced.
3. The Tenant irrevocably consents to the Submeterer's entry, upon reasonable notice of no less than forty-eight (48) hours, into the Apartment in order to inspect, repair, test, replace, or access the electrical installations, including the submeter serving the Apartment. Such access may include and is not limited to taking such action(s) as may be necessary to tenninate service to the Apartment for nonpayment of electric charges. In the event the Tenant is not present to permit the Submeterer or its representative to enter the Apartment and entry is necessary or allowed by law or under this lease, the Submeterer or its representatives may nevertheless enter the Apartment.
4. The rate calculation to be used is the Con Edison Service Classification SC-1 for direct metered service. Specifically, the Tenant's kilowatt hour ("kWh") usage will be multiplied by the Con Edison Service Classification SC-1 tariffed rate for a billing period, plus applicable taxes.

The Con Edison Service Classification SC-1 rate is a combination of various items, including, but not limited to:

Basic Customer Charge: This is a charge for basic system infrastructure and customer-related services, including customer accounting, meter reading, and meter maintenance.

kWh Cost: This energy charge is broken down into separate components, including market supply, monthly adjustment, and delivery (transmission and distribution).

Systems Benefit Charge ("SBC")/Renewable Portfolio Standard ("RPS"): This is an additional charge per kWh.

Fuel Adjustment: The sum of Market Supply Charge ("MSC") and Monthly Adjustment Charge ("MAC") adjustment factors.

The following is a nonexclusive example of the formula that will be used to derive the Tenant's electricity charges based on the current Con Edison Service Classification SC-1 rate and a monthly use of 250 kWh:

Type of Charge	Calculation	Total
Basic Charge		\$YY.YY
kWh	.XXXXX times 250 kWh	\$YY.YY
Systems Benefit Charge	.XXXXX times 250 kWh	\$YY.YY
Fuel Adjustment Charge	.XXXXX times 250 kWh	\$YY.YY
Subtotal		\$YY.YY
Utility Tax	.XXXXX times Subtotal YY.YY	\$YY.YY
New Subtotal		\$YY.YY
Sales Tax	New Subtotal YY.YY times .045000	\$T.TT
	New Subtotal YY.YY plus T.TT	\$ZZ.ZZ
Total Tenant Cost		\$ZZ.ZZ

All Con Edison rates by classification are available on its website (www.coned.com) under Rates and Tariffs. The electric Rates and Tariffs are listed under the heading "P.S.C. No. 10–Electricity."

In no event will the total rate for a billing period (including any monthly administrative charge) exceed the rates and charges of the distribution utility for delivery and commodity in that billing period to similarly-situated, direct-metered residential customers (see 16 NYCRR § 96.1 [i]).

The Submeterer or its third-party billing company will read the meters and process a bill based on the Tenant's actual consumption. The meter reading data and billing calculations will be documented and maintained for a 6-year period for each unit (see 16 NYCRR § 96.6 [j]).

The Submeterer, it managing agent, and/or its third-party billing company will read the meters and process a bill based on the Tenant's actual consumption. The meter reading data and billing calculations will be documented and maintained for a 6-year period for each unit (see 16 NYCRR § 96.6 [j]).

If the Tenant has a question about the electric bill or believes it is inaccurate, the following protocol will be followed: please contact the Building's third-party billing company by telephone at **212-930-9300 x215**, by email at **clientservices@quadlogic.com** or by mail at **Quadlogic Controls Corporation, 33-00 Northern Boulevard, long Island City, New York 11101**. For all other questions/complaints concerning submetering, please contact the Owner through the Management Office by telephone at **(718) 399-1328** or by mail at **Metro Greenlight Energy South LLC c/o BRP Management Group, 767 Third Avenue, 33rd Floor, New York, New York 10017**. The Submeterer or its third-party billing company shall investigate and respond to the Tenant in writing within fifteen (15) days of the receipt of the complaint. As part of this response, the Tenant shall be advised of the disposition of the complaint and the reason therefore. If the Tenant and the Owner cannot reach an equitable agreement and the Tenant continues to believe the complaint has not been adequately addressed, then the Tenant may file a complaint with the PSC through the Department of Public Service. Alternatively, the Tenant may contact the Department of Public Service at any time concerning submetered service in writing at New York State Department of Public Service, 3 Empire State Plaza, Albany, New York 12223, by telephone at (800) 342-3377, in person at the nearest office at 90 Church Street, New York, New York 10007, or

via the Internet at www.dps.ny.gov.

5. The Tenant will be afforded rights and protections available to residential energy consumers in New York State under HEFPA, including the ability to file a complaint with the PSC. The nearest office of the PSC is at: NYS Public Service Commission, 90 Church Street, New York, NY 10007, (212) 417-2234, (800) 342-3377, www.dps.ny.gov. The Tenant may contact the PSC at any time if you are dissatisfied regarding the Owner's response to your complaint or at any time regarding submetered service.
6. The Tenant may request balanced billing for your electric charges. Balanced billing divides the electric costs into equal monthly payments. Periodically, the balanced billing amounts will be reviewed and adjusted as necessary. At the end of one year, the Tenant shall be responsible to pay for any electric costs in excess of the balanced billing amount paid.
7. If the Tenant has difficulty paying the electric bill, you may contact the Submeterer by telephone or by letter In order to arrange for a deferred payment agreement, whereby you may be able to pay the balance owed over a period of time. if the Tenant can show financial need, the Submeterer can work with you to determine the length of the agreement and the amount of each monthly payment.
8. Regardless of your payment history relating to your electric bills, your electricity service will be continued if your health or safety or the health or safety of someone living with you is threatened. When the Submeterer becomes aware of such hardship, the Owner can refer you to the Department of Social Services. Please notify the Submeterer if either of the following conditions exist:
- (a) **Medical Emergencies.** You must provide a medical certificate from a doctor or local board of health.
- (b) **Life Support Equipment.** You and/or those living with you suffer from a medical condition requiring electricity service to operate a life-sustaining device. You must provide a medical certificate from a doctor or local board of health.
9. Special protections may be available if the Tenant and those living with you are age eighteen (18) or younger or sixty-two (62) or older, blind, or disabled.
10. If the Tenant is age sixty-two (62) or older, you may be eligible for quarterly billing for your electrical charges.
11. The Tenant may designate a third party as an additional contact to receive notices of past due balances for your electrical charges.
12. As a residential customer for electricity, the Resident also has certain additional rights assured by HEFPA.
13. Any submetering refunds will be credited to a submetered Tenant affected by the Submeterer's actions that led to such refunds provided that the Submeterer has such contact information for such Tenant.
14. The Tenant agrees that at all times the use of electricity in the Apartment shall never exceed the capacity of existing feeders to the Building or the risers, wiring or electrical installations serving the Apartment. The Tenant shall not make any alterations, modifications or additions to the electrical installations serving the Apartment.
15. The Submeterer shall have the right to suspend electric service to the Apartment when necessary by reason of accident or for repairs, alterations, replacements or improvements necessary or desirable in the Submeterer's judgment for as long as may be reasonably required by reason thereof and the Submeterer shall not incur any liability for any damage or loss sustained by the Tenant or any other occupant of the Apartment as a result of such suspension. The Submeterer shall not in any way be liable or responsible to the Tenant or any other occupant for any loss, damage, cost, or expense that the Tenant or any occupant of the Apartment may incur if either the quantity or character of electric service is changed or is no longer available or suitable for the Tenant's requirements or if the supply or availability of electricity is limited, reduced, interrupted, or suspended by the utility company serving the Building or for any reason or circumstances beyond the Submeterer's control. Except as may be provided by applicable law, the Tenant shall not be entitled to any rent reduction because of a stoppage, modification, interruption, suspension, limitation, or reduction of electric service to the Apartment.
16. If the Submeterer or its third-party billing company fails to deliver a bill to the Tenant for the use of electricity at the Apartment for any given billing period, then such failure shall not prejudice or impair the Submeterer's right to subsequently deliver or cause its third-party billing company to deliver such a bill to the Tenant, nor shall any such failure relieve or excuse the Tenant from having to pay such bill, except as may otherwise be provided by applicable law.
17. **Third Party Beneficiary:** The Submeterer is a third party beneficiary to the "Rider to Lease: Submetering ("Lease Rider") between the Owner and each Tenant. The Lease Rider is not intended nor shall be construed to give any person or entity, other than the parties hereto and the Submeterer, its successors and permitted assigns, any legal or equitable right, remedy, or claim under or in respect of this Lease Rider or any provision contained herein.
18. IT IS A SUBSTANTIAL AND MATERIAL DEFAULT OF THE TENANTS COVENANTS AND OBLIGATIONS UNDER THE LEASE IF, AFTER A COMPLAINT IS SATISFACTORILY RESOLVED IN ACCORDANCE WITH THE TENANTS RIGHTS AFFORDED BY HEFPA, THE TENANT REFUSES TO PAY THE ELECTRICAL CHARGES. ACCORDINGLY, THE OWNER SHALL BE ENTITLED TO EXERCISE ALL RIGHTS AND REMEDIES AT LAW OR IN EQUITY.

NOTIFICATION OF RIGHTS AND PROCEDURES

As a residential customer for electricity, you have certain rights assured by New York's Home Energy Fair Practices Act ("HEFPA") and the order issued by the New York State Public Service Commission on November 2, 2017, in Case 17-E-0112: Notice of Intent of Fulton Street Development LLC to Submeter Electricity at 1328 Fulton Street, Brooklyn, New York 11216, Located in the Territory of Consolidated Edison Company of New York, Inc. (the "Submetering Order"). This notification is an overview of those rights and certain policies and procedures regarding the service and billing of your electricity.

The building at 1328 Fulton Street, Brooklyn, NY 11216, is a submetered facility. Fulton Street Development LLC (the "Owner") is the owner of this building. The administration of submetering is performed by an outside vendor as a third-party billing company under contract with the Owner to invoice residents for their monthly utility usage. Residents receive monthly bills from the Owner or its third-party billing company for their respective electricity usage, which amounts are payable to the Owner.

If you have any questions/complaints concerning your electricity bill, please contact our third-party billing company by telephone at (212) 930-9300 or by mail at Quadlogic Controls Corporation, 33-00 Northern Boulevard, Long Island City, New York 11101. For all other questions/complaints concerning submetering, please contact the Owner through the Management Office by telephone at (212) 488-1746 or by mail at BRP Management Group, 767 Third Avenue, 33rd Floor, New York, New York 10017. The Owner or its third-party billing company shall investigate and respond to you in writing within fifteen (15) days of the receipt of the complaint. As part of this response, you shall be advised of the disposition of the complaint and the reason therefore. Upon receiving this response, or at any time, you can also contact the Public Service Commission in writing at New York State Department of Public Service, 3 Empire State Plaza, Albany, New York 12223, by telephone at (800) 342-3377 or (212) 417-2223, in person at the nearest office at 90 Church Street, New York, New York 10007, or via the Internet at www.dps.ny.gov.

The electricity bills that you receive show the amount of kilowatt hours ("kWh") that you used. The bills you receive shall provide, in clear and understandable form and language, the charges for service. In no event will the total monthly charges (including any administrative charges) exceed the utility's (Consolidated Edison Company of New York, Inc.) direct metered residential rate. The Owner may terminate or disconnect service under certain condition (i.e., nonpayment of electricity bills) pursuant to HEFPA.

You have the right to request messages on bills and notices in Spanish. To make such a request, contact the Owner. Usted tiene el derecho de solicitar informacion en facturas e informativos en Espanol. Para solicitar informacion en Espanol, por favor contacte a un representante marcando.

You may request balanced billing for the payment of electricity charges. This plan shall be designed to reduce fluctuations in customer bills due to seasonal patterns of consumption. Balanced billing divides your electricity costs into twelve (12) equal monthly payments. Periodically, the Owner will review and adjust the balanced billing amount as necessary. At the end of one (1) year, you shall be responsible to pay for any electricity costs in excess of your balanced billing amount paid. You may contact the Owner to discuss the details of this plan, if you are interested.

Your meter is read because it measures and records the actual amount of electricity you use; this enables an accurate bill to be sent to you. Making sure your electricity bills are accurate and correct is important to the Owner and to you. That is why every effort is made to read your meter regularly.

You may qualify for a rate reduction the equivalent of that which is provided by Con Edison to customers who are enrolled in its low-income program pursuant to its tariff (see P.S.C. No. 10 – Electricity, Leaf No. 388). If you receive benefits under Supplemental Security Income, Temporary Assistance to Needy Persons/Families, Safety Net Assistance, or Food Stamps, or have received a Home Energy Assistance Program grant in the preceding twelve (12) months, please alert the Owner by telephone or in writing and we will work with you.

If you are having difficulty paying your electricity bill, please contact the Owner by telephone or in writing in order to arrange for a deferred payment agreement, whereby you may be able to pay the balance owed over a period of time. A deferred payment agreement is a written agreement for the payment of outstanding charges over a specific period of time, signed by both the submeterer and customer. If you can show financial need, the Owner can work with you to determine the length of the agreement and the amount of each monthly payment. You may not have to make a down payment, and installment payments may be as little as \$10.00 per month. The Owner will make reasonable efforts to help you find a way to pay your bill.

Regardless of your payment history relating to your electricity bills, your electricity service will be continued if your health or safety or the health or safety of someone living with you is threatened. When the Owner becomes aware of such hardship, the Owner can refer you to the Department of Social Services. Please notify the Owner if either of the following conditions exists:

- (a) Medical Emergencies.** You must provide a medical certificate from a doctor or local board of health.
- (b) Life Support Equipment.** You and/or those living with you suffer from a medical condition requiring electricity service to operate a life-sustaining device. You must provide a medical certificate from a doctor or local board of health.

Special protections may be available if you and/or those living with you are age eighteen (18) or younger or sixty-two (62) and older, blind, or disabled. To ensure that you receive all of the protections for which you are eligible, please contact the Owner and identify yourself.

You can also designate a third party as an additional contact to receive notices of past due balances. Every submeterer shall permit a residential customer to designate a third party to receive all notifications relating to disconnection of service or other credit actions sent to such residential customer, provided that the designated third party agrees in writing to receive such notices. The submeterer shall inform the third party that the authorization to receive such notices does not constitute acceptance of any liability on the third party for service provided to the customer. The submeterer shall promptly notify the residential customer of the refusal or cancellation of such authorization by the third party. If you are interested in Voluntary Third-Party Notice, notify the Owner with the party's contact information and written agreement of the third party to receive copies of all notifications relating to disconnection of service or other credit actions sent to you.

Please review the attached "Special Protections Registration Form" relating to some of the rights discussed above. Although you are not required to do so, it is requested that you please fill it out if you qualify for any special protection described on the form. You may return the completed form to the Owner.

**NEW YORK
APARTMENT BUILDING
EMERGENCY PREPAREDNESS GUIDE**

For Apartment Building Residents and Staff

This emergency preparedness guide has been developed by the New York City Fire Department for distribution to apartment building residents and staff.

It is designed to educate you about your building and what you and the members of your household can do to prepare for emergencies, prevent fires and protect yourselves during a fire or non-fire emergency.

If you receive this guide from the building owner or manager, it will include a Building Information Sheet prepared by the building owner describing the construction of your building, building fire protection systems and exits, and other information that will inform your emergency planning.

1. EMERGENCY PREPAREDNESS BASICS

- A. Stay Informed/Emergency Notification Systems**
- B. Sheltering In Place/Emergency Supply Kit**
- C. When To Evacuate/Emergency Shelter**
- D. Reconnecting With Your Family**

A. Stay Informed/Emergency Notification Systems

- 1. Notify NYC is the City’s official source of emergency information, including weather emergencies and subway and road closures.
- 2. Sign up for free emergency alerts or to download the Notify NYC application for mobile applications.
- 3. Visit NYC.gov/notifynyc, call 311 (for Video Relay Service: 212-639-9675; for TTY: 212- 504-4115), or follow @NotifyNYC on Twitter.
- 4. During an emergency, follow instructions from on-scene emergency responders or, if the emergency is not at your building, monitor NotifyNYC, local radio, television and internet news services for the latest information, including information about emergency shelter.

B. Sheltering in Place

- 1. During some emergencies, officials may advise you to stay where you are (shelter in place). Generally, this means that it is safest for you to remain in your apartment while firefighters put out a fire or emergency responders clear a nearby hazard.
- 2. The emergency procedures discussed in this Guide (see Section 6, What to Do in a Fire or Non-Fire Emergency) will explain when to leave and when to shelter in place. In all cases, follow the instructions of on-scene police, firefighters or other emergency responders.
- 3. If an emergency requires that you shelter in place, do not leave your place of safety to pick your children up from school until the danger has passed and shelter-in-place orders have been lifted. Schools have their own shelter-in-place procedures. You will only endanger yourself by leaving a safe area during the emergency.
- 4. For weather emergencies and other emergencies that may require that you stay at home for several days, keep an emergency supply kit. See Section 3(A), Home Emergency Supply Kit.

C. When to Evacuate/Emergency Shelter

- 1. Evacuate immediately when you:
 - Are in immediate danger.
 - Are in a type of building in which evacuation is recommended and you can safely do so. See Section 7(A).
 - Are instructed to do so by an on-scene emergency responder.
 - Are ordered to do so by the Mayor or other public authority.
- 2. If you must evacuate your building or are directed by authorities to evacuate, make arrangements to stay with friends or family. During a coastal storm evacuation, the City and/or its partners will open evacuation centers throughout the five boroughs. Know which evacuation center is closest to you by visiting NYC.gov/knowyourzone, or calling 311 (for Video Relay Service: 212-639-9675; TTY: 212-504-4115).

D. Reconnecting With Your Family

Discuss with your family and household members where to meet if you have to evacuate your building and cannot return.

- 1. Identify two places to meet: one near your home and one outside your neighborhood.
- 2. Designate an out-of-area friend or relative who household members can call if separated during a disaster. Long-distance calls may be easier to make than local calls. This out-of-area contact can help you communicate with others.

2. PEOPLE WHO NEED ASSISTANCE

A. If you need help

- 1. If you will have difficulty leaving the building (or going elsewhere once you are out of the building) without assistance, make a plan in advance and identify people who could help you.

- If you live alone, or your household members work or are not capable of assisting you, consider asking neighbors to help you down the stairs (in case of fire or power failure). Keep their telephone numbers and other contact information handy.
- If you rely on the elevator for evacuation, ask the building owner or manager if they will notify you in advance before they take the elevator out of service during an emergency (or for maintenance in normal circumstances).
- If your building has staff, ask your building owner or manager if the staff can alert emergency responders and/or assist you, if possible.
- Take into consideration the factors outlined in Section 6(A)(2) Evacuation Assistance.

2. Keep a whistle in your apartment or bang pots together in case you need to signal to neighbors or others that you need assistance.
3. Prepare and have ready a written note explaining your communication needs if you will need assistance understanding others or others will need assistance understanding you. If you communicate in writing, purchase and keep a portable white board, chalk board or other personal communications device.
4. If you use a scooter or wheelchair, know the size and weight of your device, and whether it is collapsible, to assist in making transportation arrangements.

B. If you can provide help

1. Be a caring neighbor. During an emergency, if safe to do so, check on neighbors who may need assistance, especially seniors and persons with disabilities, who may need to be warned.
2. If you can safely do so and are physically able, assist a neighbor in evacuating a building. Do not use elevators during a fire. See Section 6(A), Evacuation Assistance.
3. When providing assistance, listen carefully to what your neighbor has to say about how they should be lifted or moved.

3. READINESS SUPPLIES (FOR HOME EMERGENCIES AND YOUR GO BAG)

A. Home Emergency Supply Kit

Keep enough supplies in your home to survive for up to seven days. Below are suggested items to keep in an easily accessible container (replace expired items from time to time):

- One gallon of drinking water per person per day
- Nonperishable, ready-to-eat canned foods and manual can opener
- First aid kit
- Flashlight
- Battery-operated AM/FM radio and extra batteries
- Whistle to signal for help from neighbors
- Personal hygiene items: soap, feminine hygiene products, toothbrush, toothpaste, etc.
- Cell phone charging cord and portable battery pack
- Child care supplies or other special care items
- Pet food and supplies
- At least a week's supply of any medication or medical supplies you use regularly
- Spare eyeglasses or contact lens supplies
- Extra batteries for hearing aids
- Back-up equipment or extra supplies for any other home medical or communication devices

B. Go Bag

Your Go Bag should be sturdy and easy to carry, like a backpack or a small suitcase on wheels. You'll need to customize your Go Bag for your personal needs, but some of the important things you need in your Go Bag include:

- Copies of your important documents in a waterproof and portable container (insurance cards, birth certificates, deeds, photo IDs, proof of address, etc.)
- Extra set of car and house keys
- Copies of credit/ATM cards
- Cash (in small bills)
- Bottled water and nonperishable food, such as energy or granola bars
- Battery-operated AM/FM radio

- Extra batteries/chargers
- Medical items, including:
 - First-aid kit
 - At least a week’s supply of any medication or medical supplies you use regularly
 - Medical insurance, Medicare and Medicaid cards
 - A list of medications (and dosages)
 - Names of physicians and contact information
 - Information about medical conditions, allergies and medical equipment.
- Toiletries
- Notepad and pen
- Contact and meeting place information for your household
- Lightweight raingear and blanket
- Items to comfort or distract you, such as a book or deck of cards
- Child care supplies, including games and small toys.
- For pets and service animals:
 - A current color photograph of your pet or service animal (or even better, one of you together, in case you are separated)
 - Name of veterinarian and contact information
 - Ownership, registration, microchip and vaccination information.
 - Food and water dishes
 - Leash and (if needed) muzzle
 - Cotton sheet to place over carrier to help keep your pet or service animal calm
 - Plastic bags for clean-up

4. HOME SAFETY AND FIRE PREVENTION

- Home Safety Devices
- Safe Home Heating
- Fire Prevention Tips
- Extinguishing Small Fires

You can prevent a fire or other emergency by making sure your home is protected by working home safety devices, by heating your home safely, and by preventing fires before they start.

A. Home Safety Devices

1. Smoke and carbon monoxide alarms

- Make sure you have smoke alarms (also called smoke detectors) and carbon monoxide alarms in your apartment. New York City law requires landlords and other owners to install smoke and carbon monoxide alarms within 15 feet of the entrance to each sleeping room and in the basement. (New buildings must also have one within each sleeping room.)
- Combined smoke/carbon monoxide alarms may be used.
- Make sure the alarms are still working. Tenants are responsible for maintaining the smoke and carbon monoxide alarms in their apartments.
- Test the devices at least once a month by pressing the test button.
- Newer models are powered by electricity or have a built-in 10-year battery.
- Older models have removable batteries. Replace the batteries at least twice a year (when you change the clocks in the spring and fall is a good time). Replace the battery right away if the alarm makes a sound that indicates that the battery is low.
- Smoke and carbon monoxide alarms must be replaced in accordance with the manufacturer's recommendation, but at least once every 10 years.

2. Assistive devices

- If you or a member of your household is deaf or has limited hearing, consult with the building owner or manager regarding installation of smoke/carbon monoxide detector devices that activate a visual (strobe) or tactile (vibration) alert.
- For more information, see Section 7, Emergency Preparedness Resources.

B. Safe Home Heating

1. Call 311 (for Video Relay Service: 212-639-9675; TTY: 212-504-4115) for a fire inspection if you are unsure your heat source is safe.
2. If you need a portable heater, only use portable electrical heaters approved for indoor use (with enclosed heating elements). Do NOT use your stove or oven to heat your apartment. Do NOT use kerosene or propane heaters, which are dangerous and illegal for indoor use in New York City.
3. Check the power current required to operate the portable heater. Make sure that it can safely operate on a standard household electrical circuit. See Section 4(C), Fire Prevention Tips.
4. Check the heater from time to time when it is on, and turn it off when you leave the apartment or when you go to sleep. Never leave children alone in a room when a portable space heater is on.
5. Keep all household materials that can catch on fire, including furniture, drapes, carpeting and paper, at least three feet away from the heat source. Never drape clothes over a space heater to dry.

C. Fire Prevention Tips

1. Discarded, accidentally left lit and carelessly handled cigarettes are the leading cause of fire deaths. Never smoke in bed or when you are drowsy, and be especially careful when smoking on a sofa or other upholstered furniture. Be sure that you completely extinguish every cigarette in an ashtray that is deep and won't tip over. Never leave a lit or smoldering cigarette on furniture.

- 2. Matches and lighters can be deadly in the hands of children. Store them out of reach of children and teach them about the danger of fire.
- 3. Do not leave cooking unattended. Keep stove tops clean and free of items that can catch on fire. Before you go to bed, check your kitchen to ensure that your stove and oven are off.
- 4. Monitor coffee pots, hot plates and other electrical devices with heating elements. Don't leave them on when not needed. Make sure to turn them off at night or when no one is home.
- 5. Never plug too many devices into electrical outlets. Most household outlets provide 15 amperes of electrical current, except outlets designated for large household appliances or air conditioners. Do not operate household equipment, including microwaves, toasters, coffee pots, hot plates and other devices that use a significant amount of current on the same electrical outlet without first checking the amount of current they use.
- 6. Replace any electrical cord that is cracked or frayed. Never run extension cords under rugs. Use only power strips with circuit-breakers.
- 7. Keep all doorways, and all windows leading to fire escapes, free of obstructions.
- 8. Report to the building owner or manager any obstructions or accumulations of rubbish in the hallways, stairwells, fire escapes or other means of egress.
- 9. Window gates should be installed only when absolutely necessary for security reasons. Install only Fire Department-approved window gates.
 - Do not install window gates with key or combination locks. A delay in finding or using the key or combination could cost lives.
 - Familiarize yourself and the members of your household with the operation of the window gate.
 - Maintain the window gate's operating mechanism so it opens smoothly. Don't place any furniture or personal items where they would prevent the window gates from opening.
- 10. Familiarize yourself and members of your household with the location of all building stairwells, fire escapes and exits and the route to get to them.
- 11. With the members of your household, prepare an emergency escape route to use in the event of a fire in the building. Choose a meeting place a safe distance from your building where you should all meet in case you get separated during a fire.
- 12. Exercise care in the use and placement of fresh cut decorative greens, including Christmas trees and holiday wreaths. If possible, keep them planted or in water. Do not place them in public hallways or where they might block egress from your apartment if they catch on fire. Keep them away from any flame, including candles and fireplaces. Do not keep for extended period of time; as they dry, decorative greens become easily combustible.
- 13. Never use a propane, charcoal or other portable grill indoors.
- 14. Decorative fireplaces that use liquid alcohol or other flammable liquid are a potential fire hazard. The liquid is easy to spill and quick to ignite. See Section 7, Emergency Preparedness Resources, for more information.

D. Extinguishing a Small Fire

- 1. You are not expected to put out a fire once it has spread. Instead:
 - Get everyone out of the apartment.
 - Leave immediately and close the apartment door behind you. (**This is very important.**)
 - Report the fire by calling 911 as soon as you reach a safe location. (If your building has a fire alarm system, use the manual pull station to activate the fire alarm as you leave the building.)
 - Notify any building staff.
- 2. For a fire that has not spread, you can use a portable fire extinguisher. Standard ABC-type (dry chemical) portable fire extinguishers are designed for household fires, except for stove-top fires. Cover the pan or pot and/or use a baking soda or wet portable fire extinguisher (labeled Class K) for stove-top grease/oil fires.
- 3. To use a portable fire extinguisher, remember P.A.S.S.:
 - Pull
 - Aim
 - Squeeze
 - Sweep

5. KNOW YOUR BUILDING

Learn about your building's construction and types of fire protection systems. This will help you make informed decisions in the event of a fire or non-fire emergency in your building.

- Building construction: Is your building made of fireproof (non-combustible) material or nonfireproof (combustible) material?
- Building fire protection systems: Is your building protected by a sprinkler system? Does it have a fire alarm system or a building communications system?
- Getting out safely (means of egress): How can I get out of the building in case of emergency? Where do the stairwells and other exits leave me: on the street, in the lobby, in the rear yard or other location?

Review the Building Information Sheet you receive from your building owner. Owners of apartment buildings (three or more apartments) are required to prepare and distribute a Building Information Sheet and New York City Apartment Building

Emergency Preparedness Guide to all residents and building staff. They are also required to post an Emergency Preparedness Notice on the inside of your apartment entrance door, and in the lobby or common area.

A. Building Construction

1. Non-Combustible Buildings. A “non-combustible” or “fireproof” building is a building whose structural components (the supporting elements of the building, such as steel or reinforced concrete beams and floors) are constructed of materials that do not burn or are resistant to fire and therefore will not contribute to the spread of the fire. In such buildings, fires are more likely to be contained in the apartment or part thereof in which they start and less likely to spread beyond the building walls to other apartments and floors.

- THIS DOES NOT MEAN THAT A NON-COMBUSTIBLE BUILDING IS IMMUNE FROM FIRE. While the structural components of the building may not catch fire, all of the contents of the building (including furniture, carpeting, wood floors, decorations and personal belongings) may catch on fire and generate flame, heat and large amounts of smoke and carbon monoxide, which can travel throughout the building, especially if apartment or stairwell doors are left open.

2. Combustible Buildings. A “combustible” or “nonfireproof” building has a wood or other structure that will burn if exposed to fire. A fire that spreads from the burning contents of an apartment into the building walls can spread within the walls and endanger the entire building.

Check the Building Information Sheet for your building to see whether it is combustible or non-combustible construction.

B. Fire Protection Systems

Regardless of the type of construction it is, your building may be protected by fire protection systems that detect and/or help prevent fires, and provide early warning to building occupants.

1. Fire Separations. Most apartments have sheetrock walls and ceilings and fire-rated metal doors. Many buildings also have enclosed stairwells (enclosed within their own walls and doors). Sheetrock and fire-rated doors are “passive” fire protection systems designed to contain the fire for some amount of time, to allow the Fire Department to respond and extinguish the fire and rescue building occupants.

- ALWAYS close the door to your apartment as you leave if there is a fire in the apartment. LEAVING THE APARTMENT DOOR OPEN WHEN THE APARTMENT IS ON FIRE ALLOWS THE FIRE TO SPREAD OUTSIDE OF THE APARTMENT.
- NEVER block/chock open stairwell doors. Stairwell doors should be kept closed at all times.

2. Sprinkler Systems. A sprinkler system is designed to extinguish a fire by spraying water on it. A sprinkler head on the ceiling detects the heat of a fire and automatically releases the water from the pipe in the ceiling. It also sounds an alarm at street level, or, in most newer buildings, transmits an alarm to a fire alarm company central monitoring station.

- Sprinklers are good at preventing a fire from spreading, but the fire may still generate a large quantity of smoke. Smoke spread can be lifethreatening to other building occupants. Always close the apartment door as you leave.
- Apartment buildings constructed since 2000 generally are protected by a sprinkler system. Earlier buildings generally do not have a sprinkler system throughout the building. Some have partial sprinkler systems in open stairwells, compactor rooms or other areas.

3. Emergency Voice Communication Systems. Most high-rise apartment buildings constructed since 2009 that are taller than 12 stories or 125 feet are equipped with a building-wide emergency voice communication system that allows Fire Department personnel to make announcements in the stairwells and in each dwelling unit from a central location, usually the building lobby.

4. Fire Alarm Systems. All apartment buildings have smoke alarms and carbon monoxide alarms in individual apartments (see Home Safety Devices, Section 4(a) above). These alarms are not connected to a building fire alarm system and do not automatically notify a fire alarm company central station; they only sound in the apartment.

Some buildings have fire alarm systems, but they may be limited in the areas they cover and may not activate an alarm throughout the building.

- Most apartment buildings built since 2009 have a building fire alarm system, but it is limited to smoke detection in mechanical and electrical rooms. Any alarm in those rooms is automatically transmitted to a fire alarm company central monitoring station, which notifies the Fire Department.
- Some older buildings have an interior fire alarm system with loudspeakers designed to warn building occupants of a fire in the building and manual pull stations that can be used to activate the fire alarm system. The manual pull stations are usually located near the main entrance and by each stairwell door. The manual pull stations generally do not automatically transmit a signal to a fire alarm company central monitoring station.

If you see or hear any of these devices sound an alarm, call 911. Do not assume that the Fire Department has been notified.

5. Public Address Systems. Although generally not required, some residential buildings are equipped with public address systems that enable voice communications from a central location, usually the building lobby. Public address systems are different from building intercoms, and usually consist of loudspeakers in building hallways and/or stairwells.

Check the Building Information Sheet for your building to see whether there is a sprinkler system, fire alarm system, emergency voice communication system or public address system in your building.

C. Getting Out Safely (Means of Egress)

Almost all residential apartment buildings have at least two means of egress (way of exiting the building). There are several different types of egress:

1. Interior Stairs. All buildings have stairs leading to the street level. These stairs may be enclosed or unenclosed.
 - Enclosed stairwells are more likely to allow safe egress from the building, if the doors are kept closed.
 - Unenclosed stairs do not prevent the spread of flame, heat and smoke. Flames, heat and smoke from a fire will rise up the stairs and prevent safe egress down the stairs from floors above the fire.
2. Exterior Stairs. Some buildings provide access to the apartments by means of outdoor stairs and corridors. The fact that they are outdoors and do not trap heat and smoke enhance their safety in the event of a fire, provided that they are not obstructed.
3. Fire Tower Stairs. These are generally enclosed stairwells in a “tower” separated from the building by air shafts open to the outside. The open air shafts allow the heat and smoke to escape, keeping the stairwell safe.
4. Fire Escapes. Older buildings may have a fire escape on the outside of the building, which is accessed through a window or balcony. Fire escapes should be used only if the primary means of egress from the building (stairwells) have become unsafe because they are obstructed by flame, heat or smoke.
5. Exits. Almost all buildings have more than one exit to the outdoors. In addition to the main entrance to the building, there may be side exits, rear exits, basement exits, and exits to the street from stairwells. You should know which exits lead to the street or other safe place, and how to get to them from your apartment.
 - Some of these exits may have alarms and should only be used in an emergency.
 - Roof access doors are not exits and may or may not allow access to adjoining buildings. Roofs are dangerous places, especially at night or in a fire. They usually have limited or no lighting and often have tripping hazards and unprotected drop-offs. Do not use roof access as an exit except as a last resort and only if there is safe access to an adjoining building.

Check the Building Information Sheet for your building to see the different means of egress from your building and where they exit the building.

D. APARTMENT IDENTIFICATION AND FIRE EMERGENCY MARKINGS

All apartments are required to have the apartment number clearly marked at eye level on the main entrance door to the apartment, in the building corridor. This will help the Fire Department and other first responders quickly locate your apartment in an emergency.

In addition, many apartment buildings are now required to post or mark the apartment number on the door jamb, at floor level. These reflective or luminous “fire emergency markings” will help the Fire Department locate your apartment during a fire or smoke condition when the eyelevel door numbers are not visible. All duplex and other multi-floor apartments, and all apartment buildings that are not protected by a sprinkler system and have more than 8 apartments on a floor, are required to install the fire emergency markings on apartment and stairwell door jambs. For more information, see Section 7, Emergency Preparedness Resources.

Make sure your apartment number is on your apartment door. Check whether fire emergency markings are required in your apartment building

6. WHAT TO DO IN A FIRE OR NON-FIRE EMERGENCY

A. FIRES

In the event of a fire, follow the directions of Fire Department personnel. However, there may be emergency situations in which you may be required to decide on a course of action to protect yourself and the other members of your household before Fire Department personnel arrive on scene or can provide guidance.

1. Emergency Fire Safety Instructions

The instructions below are intended to assist you in selecting the safest course of action. Please note that no instruction can account for all of the possible factors and changing conditions; you will have to decide for yourself what is the safest course of action under the circumstances.

- Stay calm. Do not panic. Notify the Fire Department as soon as possible. Firefighters will be on the scene of a fire within minutes of receiving an alarm.
- Because flame, heat and smoke rise, generally a fire on a floor below your apartment presents a greater threat to your safety than a fire on a floor above your apartment.
- Do not overestimate your ability to put out a fire. Most fires cannot be easily or safely extinguished. Do not

attempt to put the fire out once it begins to quickly spread. If you attempt to put a fire out, make sure you have a clear path of retreat from the room.

- If you decide to exit the building during a fire, close all doors as you exit to confine the fire. NEVER USE THE ELEVATOR. It could stop between floors or take you to where the fire is, and can become filled with smoke or heat.
- Heat, smoke and gases emitted by burning materials can quickly choke you. If you are caught in a heavy smoke condition, get down on the floor and crawl, keeping your head close to the floor. Take short breaths, breathing through your nose.
- If your clothes catch fire, don't run. Stop where you are, drop to the ground, cover your face with your hands to protect your face and lungs and roll over to smother the flames.

If the fire is in your apartment:

- Close the door to the room where the fire is, and leave the apartment.
- Make sure EVERYONE leaves the apartment with you.
- Take your keys.
- Close, but do not lock, the apartment door.
- Use the nearest stairwell that is free of smoke to exit the building.
- DO NOT USE THE ELEVATOR.
- Call 911 as soon as you reach a safe location. Do not assume the fire has been reported unless firefighters are on the scene.
- Meet the members of your household at a predetermined location outside the building. Notify responding firefighters if anyone is unaccounted for.

If the fire is not in your apartment (in NON-COMBUSTIBLE OR FIREPROOF BUILDINGS):

- Stay inside your apartment (shelter in place) and listen for instructions from firefighters unless conditions become dangerous.
- If you must exit your apartment, first feel the apartment door and doorknob for heat. If they are not hot, open the door slightly and check the hallway for smoke, heat or fire.
- If you can safely exit your apartment, follow the instructions above for a fire in your apartment.
- If you cannot safely exit your apartment or building, call 911 and tell them your address, floor, apartment number and the number of people in your apartment.
- Seal the doors to your apartment with wet towels or sheets, and seal air ducts or other openings where smoke may enter.
- Open windows a few inches at top and bottom unless flames and smoke are coming from below. Do not break any windows.
- If conditions in the apartment appear life-threatening, open a window and wave a towel or sheet to attract the attention of firefighters.
- If smoke conditions worsen before help arrives, get down on the floor and take short breaths through your nose. If possible, retreat to a balcony or terrace away from the source of the smoke, heat or fire.

If the fire is not in your apartment (in COMBUSTIBLE OR NON-FIREPROOF BUILDINGS):

- Feel your apartment door and doorknob for heat. If they are not hot, open the door slightly and check the hallway for smoke, heat or fire.
- Exit your apartment and building if you can safely do so, following the instructions above for a fire in your apartment.
- Alert people on your floor by knocking on their doors on your way to the exit.
- If the hallway or stairwell(s) are not safe because of smoke, heat or fire and you have access to a fire escape; use it to exit the building. Proceed cautiously on the fire escape and always carry or hold onto small children.
- If you cannot use the stairs or fire escape, call 911 and tell them your address, floor, apartment number and the number of people in your apartment.
- Seal the doors to your apartment with wet towels or sheets, and seal air ducts or other openings with plastic and duct tape where smoke may enter.
- Open windows a few inches at top and bottom unless flames and smoke are coming from below. Do not break any windows.
- If conditions in the apartment appear life-threatening, open a window and wave a towel or sheet or blow on a whistle to attract the attention of firefighters.
- If smoke conditions worsen before help arrives, get down on the floor and take short breaths through your nose. If possible, retreat to a balcony or terrace away from the source of the smoke, heat or fire.

2. Evacuation Assistance

If you will need assistance in evacuating the building, you should develop a plan in advance and arrange a network of supports to be sure that you will be able to get out. For more information, see Section 2, Persons Who Need Assistance.

In developing your plan, take the following factors into consideration:

- The most common problem in evacuating is inability to walk or difficulty walking. Elevators can be used to evacuate the building in most emergencies, but not during a fire or power outage.
- Relocating within the building below the fire floor or non-fire emergency may be sufficient to protect you from harm.
- If you use a wheelchair, scooter or other motorized device, consider keeping a lightweight travel wheelchair or evacuation chair in your apartment to make it easier for others to assist you when the elevator can't be used. Show how it works to those who will be helping you.
- Carrying a person down flights of stairs is difficult, at best. If you and those who may be helping you think it can be done, educate yourselves as to different ways persons can be carried. For more information, see Section 7, Emergency Preparedness Resources.

As a last resort, if you are unable to evacuate, retreat to the safest area from the fire or other emergency. This could be your apartment, a neighbor's apartment, or the stairwell itself. Some newer buildings may have a room

near the stairwell designed as a shelter and equipped with a telephone. Call 911 (or have others call 911) to report your situation.

B. MEDICAL EMERGENCIES

Take a moment to plan ahead for a medical emergency. What should you do if you, a member of your family or a neighbor experience a medical condition that requires emergency ambulance transport to a hospital?

Familiarize yourself with the warning signs of a medical emergency and the information the 911 operator will ask you to provide. Keep handy the phone numbers of someone you can call to meet emergency responders and escort them directly to the patient.

- 1. Warning signs.** The following are warning signs of a medical emergency:

 - Burns or smoke inhalation
 - Bleeding that will not stop
 - Breathing problems, such as difficulty breathing or shortness of breath
 - Change in mental status, such as unusual behavior, confusion, difficulty in waking
 - Chest pain
 - Choking
 - Coughing up or vomiting blood
 - Fainting or loss of consciousness
 - Feeling of committing suicide or murder
 - Head or spine injury
 - Severe or persistent vomiting
 - Sudden, severe pain anywhere in the body
 - Sudden dizziness, weakness, or change in vision
 - Swallowing a poisonous substance
 - Upper abdominal pain
- 2. Call 911.** Should you or a member of your household experience any of the above symptoms, immediately call 911. Be ready to provide the following information to the 911 operator:

 - The address of the building, including the nearest cross-street and apartment number.
 - The best building entrance to use to get to where you are.
 - The number of persons who are ill and your exact location inside or outside of the building.
 - Your chief complaint and/or present condition (e.g. bleeding, breathing/not breathing, conscious/unconscious, etc.).
 - Any disability of which emergency responders should be aware, such as hearing loss, blind or limited vision, or a cognitive disability that will affect the emergency responders ability to communicate with you.
 - Have a family/household member stay with you.
- 3. Notify Building Staff.** After calling 911, notify building staff that you have called 911 for an ambulance. Ask them to meet the emergency responders, let them into the building and assist them in finding your apartment. If you do not have or cannot reach building staff, ask a family member or neighbor to meet and assist the emergency responders.

C. UTILITY EMERGENCIES

Utility disruptions include power outages, carbon dioxide releases, gas leaks and water leaks. They can affect a single apartment, building or block or the entire city.

- 1. Power Outages**

Advance preparation:

 - Keep flashlights and spare batteries in your apartment.
 - Avoid the use of candles, which can start a fire. For more information about the safe use of candles, see Section 7, Emergency Preparedness Resources.
 - If you rely on medical equipment that requires electric power, look into obtaining a back-up power source. Ask your utility company whether your medical equipment qualifies you to be listed as a life-sustaining equipment (LSE) customer who will be contacted in the event of power emergency. See Section 7, Emergency Preparedness Resources.
 - Keep your cell phone charged. If you have a battery pack, keep it fully charged as well.

At time of the power disruption:

 - Call your utility company immediately to report the outage. See Section 7, Emergency Preparedness Resources.
 - Turn off all appliances that will turn on automatically when service is restored, to avoid a power surge that can damage your electrical circuits and appliances.
 - Keep refrigerator and freezer doors closed as much as possible to avoid spoilage.
 - Do not use generators indoors. They can create dangerous levels of carbon monoxide.
 - Do not use propane or kerosene heaters or grills indoors.
- 2. Carbon Monoxide Release**

Carbon monoxide (CO) is a colorless, odorless gas produced by fuel-burning appliances and equipment (such as stoves, furnaces and hot water heaters), fireplaces and vehicle exhaust pipes. The carbon monoxide generated by these appliances should be released outdoors through a chimney, vent pipe or other means. A blocked or cracked chimney or vent pipe can allow carbon monoxide to enter the building, sometimes many floors from the source.

Symptoms of carbon monoxide poisoning are flu-like. They may include headache, dizziness, fatigue, chest pain, vomiting. If not promptly addressed, it can cause death.

IF YOU SUSPECT CARBON MONOXIDE POISONING:

 - Open windows.
 - Evacuate the building.

- Call 911 as soon as you reach a safe location.
- Call your local utility company.

3. Gas Leaks

Many apartments use piped natural gas from the utility company for cooking and clothes drying. Natural gas is flammable and explosive. If it leaks and collects in an apartment or room, a spark can ignite it, causing an explosion and a fire.

Piped natural gas is given a distinctive, “rotten eggs” smell by the utility company. If you smell natural gas:

- Do not operate any light switches or electrical devices in the apartment, including your cell phone. Any spark could cause a fire.
- Do not smoke and immediately extinguish any smoking materials.
- Evacuate the building, taking all members of your family/household.
- Call 911 to report the emergency when outdoors.
- For more information about building explosions, see Section 6(F).

4. Water Leaks or Interruptions

Water leaking into electrical wiring can cause a fire.

- If water is leaking into your apartment (or from your apartment to others), immediately arrange for repairs or notify the building owner or manager to do so (as applicable).
- If water is entering electrical wiring in the ceiling or walls, call 911.
- If you have no water or very low water pressure, report the condition to 311 (for Video Relay Service: 212-639-9675; TTY: 212-504-4115).
- If you have a concern about drinking water quality, report the condition to 311. Monitor Notify NYC or local radio and TV stations for official guidance as to a widespread drinking water emergency.
- If you see water coming up from the ground or roadway, or suspect a water main break, call 311 (for Video Relay Service: 212-639-9675; TTY: 212-504-4115).

D. WEATHER EMERGENCIES

1. Extreme Heat

During a heat wave your apartment may be unsafe if it is not air conditioned. Infants, the elderly and the ill are particularly vulnerable to the effects of extreme heat.

Monitor Notify NYC and local radio and TV stations for extreme heat warnings.

IN AN EXTREME HEAT EMERGENCY:

- With the approval of the building owner, purchase and install one or more air conditioners. Only install air conditioners if the apartment’s electrical wiring can provide adequate power. Make sure that the air conditioners that you purchase do not require more power than your apartment’s electrical wiring can provide. Air conditioners should be installed by a trained and knowledgeable person to make sure that they are securely affixed to the building and do not endanger others below.
- Spend as much time as possible, especially during the day, in an air conditioned place. This could be a friend or neighbor’s apartment, a restaurant or store, or a cooling center.
- During heat emergencies, New York City operates cooling centers in air-conditioned public facilities. Public pools may also be available. Call 311 (for Video Relay Service: 212-639-9675; TTY: 212-504-4115) or access NYC.gov/emergencymanagement during a heat emergency to find a local cooling center or pool.
- Avoid strenuous activity.
- Drink plenty of water. Avoid alcohol and caffeinated beverages.
- Conserve power: if you have an air conditioner, set it no lower than 78 degrees during a heat wave when you are in your apartment, and turn off nonessential appliances.

2. Blizzards and Other Winter Weather Storms

The public is generally advised to shelter in place in their homes during a winter weather storm. Apartment buildings usually provide a safe environment during storms and persons can remain indoors for several days if necessary if they make adequate provision for food and other supplies.

3. Coastal Storms and Hurricanes

In some extreme weather emergencies, such as hurricanes, the City may order evacuations in areas. If you live in a high rise building, especially on the 10th floor or above, stay away from windows in case they break or shatter, or move to a lower floor.

Advance preparation:

- Before a coastal storm or hurricane, find out if you live in one of New York City’s hurricane evacuation zones. See Section 7, Emergency Preparedness Resources, or NYC.gov/knowyourzone.
- Prepare your home and vehicles. Secure outdoor objects, close windows and exterior doors securely, move valuable items to upper floors, and top off your vehicle and generator with fuel.
- Have your Go Bag ready.
- Know where you will go in the event an evacuation order is issued. Stay with family or friends or call 311 for information before, during or after the storm.
- If ordered to evacuate, do so as directed. Use public transportation if possible. Keep in mind that public transportation may shut down several hours before the storm arrives.

- If you need to use the elevator to evacuate and are in an evacuation zone, be sure to evacuate before elevator service is discontinued to protect the elevators from flooding. Building owners are required to post signs in the building lobby or common area in advance (if possible) of a weather emergency if they will be discontinuing elevator service. Advance notification of the building owner/ management may help ensure you receive appropriate notification. See Section 2, People Needing Assistance.
- Be prepared for a power interruption by charging your cell phone and other portable devices and adjust the refrigerator setting to a colder temperature.

During the storm:

- Stay indoors.
- Call 911 if you have a medical emergency or are in danger from physical damage to your building or apartment, but be aware that an emergency response may be delayed or unavailable during the storm.
- If you are trapped inside by rising waters, move to a higher floor, but don't retreat into an enclosed attic unless you have a saw or other tool to cut a hole in the roof if necessary. Call 911 and report your situation. Wait for help. Do NOT try to swim to safety. Do not enter a building if it is surrounded by floodwaters.
- Stay away from downed power lines. Water conducts electricity.

4. Earthquakes

Although earthquakes are not common in the New York City area, earthquakes can and have affected our area, and apartment building residents and staff should be prepared.

Depending on its location, even a small earthquake can cause buildings to shake, physically damage buildings (including cracks in walls), and cause objects to move or fall from shelves.

During an earthquake, “drop, cover and hold on”:

- Take cover under a sturdy piece of furniture (such as a table) and hold on.
- If you cannot take cover under a piece of furniture, take cover in a corner next to an inside (interior) wall.
- Drop to the floor.
- Cover your head and neck with your arms.
- If you use a wheelchair, take cover in a doorway or next to an interior wall and lock the wheels. Remove from the wheelchair any equipment that is not securely affixed to it. Cover yourself with whatever is available to protect yourself from falling objects.
- If you are unable to move from a bed or chair, protect yourself from falling objects with blankets or pillows.
- If you are outdoors, go to an open area away from trees, utility poles and buildings.
- Stay where you are until the shaking stops.

Be aware that there may be aftershocks, additional earthquake vibrations which often follow an earthquake.

5. Tornados

Although not common in the New York City area, a number of tornados (and microbursts, a similar wind condition) have touched down in New York City in recent years.

In the event of a tornado alert:

- If a tornado is approaching your neighborhood, immediately go to the basement of your building. If your building has no basement, go to the lowest floor of the building.
- Stay next to the wall in an interior room or area away from windows until the tornado has passed.
- Avoid interior spaces with roofs that span a large open space, such as atriums and auditoriums.
- If there is no suitable place to shelter in your building, evacuate your building for a safer location, but only if there is sufficient time to get there.

E. **HAZARDOUS MATERIALS EMERGENCIES**

1. Chemical

A hazardous materials emergency can result from an accident, such as an overturned truck or an explosion in a factory, or as a result of criminal activity, such as a terrorist attack.

If the chemical is being dispersed through the air, every effort should be made to avoid breathing it in.

During the emergency:

- Shelter in place. Generally, it is safest to shelter in place in your apartment.
- Turn off all air conditioners and ventilation systems, close windows and seal up all ventilation grilles and other openings that will allow outside air to enter into your apartment.
- Monitor Notify NYC and local radio and TV stations for additional information.

If you are near the area of the chemical release or it has entered your apartment:

- Cover your nose, mouth and as much of your skin as possible.
- Evacuate your apartment and building if it is safe to do so. If not, move to an interior room, such as a bathroom and seal up the windows and doors.

Once the emergency has been resolved, if you have been exposed to, or contaminated by, the chemical:

- Listen for instructions from public authorities and/or first responders.
- Decontaminate yourself as soon as you reach a clean area. Obtain medical assistance if needed.

Monitor Notify NYC for guidance if the hazardous materials release affects the water or food supply.

2. Radiological Dispersal Device (RDD)

Radiological dispersal devices (RDDs) use conventional explosives with radioactive material. RDDs are not capable of creating a nuclear explosion: they are not nuclear weapons. They are meant to cause panic and disrupt

daily life.

RDDs can cover a wide area with dangerous radioactive material. Radioactive material dispersed from an RDD can settle like dust on your clothing, your body, and other objects.

If you are outside, immediately take shelter in the nearest safe building and monitor Notify NYC (and local radio and TV stations, if available) for additional information and instructions.

If you or your family are near the location of a confirmed RDD explosion, follow the steps below to reduce any potential radiation exposure. Do not go to a hospital unless you have a medical emergency.

- Take off your outer layer of clothing and your shoes. This can remove up to 90% of any radioactive material. Do not shake or brush off the dust.
- Seal the clothing and shoes you were wearing in a plastic bag or other container and keep them away from people and pets, but do not place them in the garbage.
- Gently blow your nose and wipe your eyes and ears with a clean wet cloth.
- Take a shower with plenty of soap. Wash from your head down. Avoid scratching your skin. Wash your hair using shampoo only. Do not use conditioner because it may cause radioactive material to stick to your hair and skin.
- If you cannot shower, use a dry or wet cloth or wipe to clean skin that was uncovered, including your face and hands. Seal the used cloth or wipes in a bag or container like you did with your contaminated clothes.
- Put on whatever clothing and shoes you have that are not contaminated with dust. If necessary, borrow clothes from a neighbor.
- All personal devices and equipment that may have been exposed to radioactive material, especially wheelchairs and other mobility equipment, should be wiped down with a damp cloth or wipe. Make sure to clean the wheels. Wash your hands afterwards.
- Decontaminate pets and service animals by washing and shampooing them. It is not necessary to shave their fur.

F. BUILDING EXPLOSIONS/COLLAPSE

The most common reason for a building explosion is a gas leak. See Section 6(C)(3), Gas Leaks.

Building explosions can also result from malfunctioning equipment or criminal activity.

Explosions can cause buildings, or portions of buildings, to collapse. Building collapses also result from unlawful or improperly performed alterations to the building structure.

Buildings of noncombustible construction (with concrete or steel structures) are less likely to collapse, except in extraordinary circumstances.

If there is an explosion in your apartment building:

- Attempt to determine the severity of the damage to the building (such as collapsed or cracked ceilings or walls, clouds of dust, or strong smell of gas) and whether you are in immediate danger.
- If conditions allow, evacuate the building as quickly and calmly as possible.
- Call 911 as soon as you are in a safe location.
- If you cannot safely evacuate or you are not certain it is safe to evacuate, call 911 and follow the instructions they provide.
- If there is a possibility of a collapse of walls or ceilings, take cover under a sturdy piece of furniture (such as a table).

If there is a collapse in your building and you are trapped by debris:

- Cover your nose and mouth with a dry cloth or clothing.
- Move around as little as possible to avoid generating dust, which may be harmful and make it difficult to breathe.
- Tap on a pipe or wall so rescuers can hear where you are. Use a whistle if one is available.

G. TERRORISM

A terrorist's primary objective is to create fear. With accurate information and basic emergency preparedness, you can fight back. Visit PlanNowNYC, a website developed by NYC Emergency Management and the City's other emergency response agencies to help New Yorkers prepare for terrorist attacks. See Section 7, Emergency Preparedness Resources.

1. Know the Facts and Be Responsible

- Keep in mind that terrorism can take many different forms. By preparing for the fire and non-fire emergencies addressed above, you will also be preparing for terrorist attacks.
- Know the facts of a situation and think critically. Confirm reports using a variety of reliable sources of information, such as the government or media. Do not spread rumors.
- Do not accept packages from strangers, and do not leave luggage or bags unattended in public areas such as the subway.
- If you receive a suspicious package or envelope, do not touch it. Call 911 and alert City officials. If you have handled the package, wash your hands with soap and water immediately. Read the US Postal Service's tips for identifying suspicious packages. For more information, see Section 7, Emergency Preparedness Resources.

2. Active Shooter Emergencies

In an active shooter emergency, one or more armed individuals enter a building or other place with the intention of shooting multiple persons, typically at random.

© FDNY 2018

Active shooter incidents are generally associated with public buildings and places, not apartment buildings. However, an active shooter emergency could occur in or around your apartment building, or where you work, shop, or spend recreational time. It is important that you understand how to respond to such emergencies.

DURING AN ACTIVE SHOOTER EMERGENCY, IT IS RECOMMENDED THAT YOU:

1. **Avoid (Run).** Get away from the shooter, if you can. Leave your personal belongings behind.
2. **Barricade (Hide).** If you can't safely leave the area, go into an apartment or other room. Lock the door and/or block it with large, heavy objects to make entry difficult. Hide behind a large, solid item if possible, in case shots are fired through the door or wall. Turn off any source of noise and remain still and quiet. Put your cell phone and other devices on silent, not vibrate.
3. **Confront (Fight).** If you and others cannot safely leave the area and there is nowhere to hide, or the shooter enters your apartment or hiding place, use whatever you can to defend yourself. Coordinate your actions with others, if possible. Commit to your actions and act aggressively. Improvise weapons and throw items. Yell.

4. Call 911 as soon as it is safe to do so.

Law enforcement personnel responding to an active shooter incident will be focused on identifying and neutralizing the shooter(s). Law enforcement officers will be looking at the hands of all persons they encounter, both to identify the shooter and for their own safety.

1. Keep your hands empty and above your head. Do not carry any items that could be confused with a weapon or a dangerous device.
2. Do not act in a manner that may cause a law enforcement officer to view you as a threat. Do not make any sudden movements. Keep your distance. Do not run towards law enforcement officers or grab them.
3. The law enforcement personnel you first encounter may not be designated to render medical assistance. If possible, proceed to a more secure area before requesting assistance.
4. You may not be allowed to immediately leave the scene of the incident. Be prepared to be detained for questioning.
